"TIP TOPPERS" CATER TO THE TALL; PHYSICS CLUB, THE SCIENTIFIC

Tip Toppers, the king-size Withrowites, set for their goal that hard task of just having fun. Along with their sponsor, Mrs. Konrad, these six-foot giants enjoyed themselves at their annual hayride. The climax of the year will be the initiation of new members.

Physics Club, under the advisory leadership of Mr. Clayton Howe, is enjoying another big year in search of the fine points of the science of physics. The club thrives on talks by experts in physics and by practical experimentations in the fundamentals of this science.
