

MR. WALTER PEOPLES, PRINCIPAL

MEET WITHROW'S CHIEF OF STAFF -- HE DOES A DIFFICULT JOB WELL

Mr. Walter Peoples, our competent principal, is an inspiration to the teachers and students in their quest for knowledge. He not only helps the newcomer to become accustomed to high school life, but he also acts as an advisor to the senior who is preparing for college or a career. Being the guiding light for some three thousand Withrow teachers and students is a responsibility which requires kindness, fairness, tolerance, and understanding. All of these qualities combined with many years of experience as both a teacher and a principal make Mr. Peoples tops in our estimation. He has brought Withrow successfully through four trying war years, and it is his hope that we, as students and potential leaders, do not rest on our oars. We must strive for greater understanding in order to solve intelligently the problems of our world.
