

# STRONG, EARNEST LEADERSHIP REAPS SUCCESS AND PLEASURE IN SCHOOL LIFE

Yo! Ho! Heave Ho! No, it isn't a Russian boat gang, it's the muscle men of the seventh and eight grade pitted against each other in their annual tug-of-war. The unlucky losers are doused by the stream of water from the hose! The participants are chosen by classmates and teachers. Each team is limited to a given total weight, so that the victors win only by a combination of team work and prowess. Good luck fellows, may the best men win!

Playing an important part in the functioning of Withrow, these officers of the Junior High lead their classmates through two years of preparatory high school life. As practice for leadership in later life, these officers receive their basic experience in leading their five hundred fellow students. The cooperation brought about through these leaders effects success in scholarship, school spirit, and enjoyment of school life. With anticipation these officers look forward to excelling in Senior High life this coming year.
