The 1950-51 **hockey** season started off with a bang on September 19 and ended with class games on November 13. At the beginning the weather was wonderful but, when hockey Play Day rolled around, the invitational games had to be postponed twice because of snowstorms. This year 156 girls came out for hockey, freshmen topping the list with 49. Each girl had to have three practices to be eligible for participation on any one of the numerous intramural teams.

Fall brings not only rustling leaves but a bustling hockey season with charging sticks, protective shin guards and flying pucks.
