

ART STAFF at Work — K. Feiler; B. Hartz; M. Weiss; J. Kepler; E. Merrill; T. Keith.

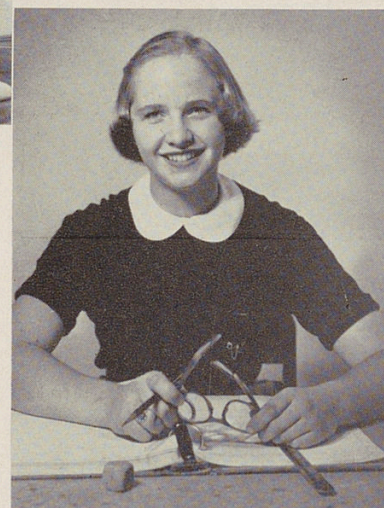

The brisk breezes of autumn found the Art Staff busily making up the layouts of which the Annual is composed. The copper shortage made it necessary for these patriots to produce stifling odors by separating the engraving plates. The preliminaries finished, the real work began. Out came the pica rulers and our artistic friends turned into mathematical geniuses to design the precise draft of each page. The pictures were planned and soon those class-disrupting picture schedules started. Fore-sighted cameramen snapped unexpected candid shots to cover all phases of school life. Dick Engel, Mary Anne Feldhaus, Esther Littmann and Mr. Pfister keep things going at a synchronized pace in spite of set-backs caused by a busy school calender. Remember Mr. Tower in the Annual assembly? He was the creation of the Art Staff for the assembly prepared by the Lit Staff.
