Withrow's administrative body is a beacon of light to sea-faring students who are struggling on the seas of knowledge. When the aspirants are driven away from their designated course of travel, the administration's various members seek to guide them back to the prescribed way. They chart their studies and endeavor to direct them into the career suited for the individual. The farthest reaching rays of lights are the top authorities, **Mr. Mathias**, assisted by his invaluable aids **Mr. Vigard**, and **Mr. Wilbur** of Little Withrow. The Junior and Senior boys are counselled by Mr. Vigard, whose schedule is also filled with the advisorship of Sigma Gamma. Mr. Wilbur works with Junior High's Effies and E-flats, compassing their paths so that they may become sturdy shipmates of those who sail smoothly in the sea of life.
