"Help Your School And Help Yourself"

Wouldn't you like to have your voice booming over the loudspeakers at an exciting game? That is just one of the authorizations given a group bearing the name of **student services**. This efficient family of workers includes the projection crew, the key boy, and those who render services in 104, where the selling of tickets and the handling of lost and found articles are managed. Although the responsibility is great, this clan is proud of the job.

Another nickel gone, another locker for the key boy to open.

A familiar punch! punch! punch! coming from the ticket office tells people that Elaine, Nancy, Dick, and Mr. Knost are working.
