The Team

With over eighteen different teams, Withrow has a coaching staff composed of eleven of the most efficient and popular men in the city. As should be expected, sportsmanship is stressed by these men. But more than that, the players have the chance to learn the fundamentals, make many lasting friends, and chalk up a good record. When the fans and die-hard rooters are sipping a soda after school, the team and coaches are sweating it out in practice. Assisting in any way possible, the capable managers are the second team behind the team. Their job is cleaning, storing, furnishing, and collecting equipment. Another important job is keeping exact records for the coaches. The team, the coaches, and the managers have combined to form a most stalwart, efficient, and smooth working group which has earned numerous championships and honors for our cherished Alma Mater.
