

## Dolphin Club

the healthful

"Help!" comes the familiar cry; and "Splash!" goes another would-be rescuer, racing through the water with high hopes of earning her **Life-Saving** badge. All the members of **Dolphin Club** are working hard at their study of Junior and Senior Life-Saving. Strokes, breaks, parries, and new methods of artificial respiration occupy the girls. On the side, the dolphins can be seen learning, practicing and perfecting kips, back dolphins, wheels, fancy diving, and new routines for next year's bi-annual Water Ballet.
