

As a tree is shaped through its environment . . .

The 1950 Withrow Annual
WITHROW HIGH SCHOOL, CINCINNATI, O.

The Key to this, our 1950 Annual! As the greenness of a tree indicates life, so **"The Green Years"** mean development for every pupil in Withrow, from the youngest seventh grader, to the most learned senior: mental growth from studies; physical growth from athletics and planned gym courses; social development from contact with teachers and pupils in their classrooms and elsewhere.
