

as well as create in fields which most interest us.

Wonderful? The **cooking** teachers still just can't believe it! After all, what would you do with a huge refrigerator, lighted ovens, and a new room for parties and movies? Even our hard-bitten males have fallen for the homey effect. What with snack-bars, tops in modern equipment, and the newest safety devices, how can we help but turn out top chefs and wives in the future?

As for the **collage**, it's a combination of art and sculpture designed to please the eye by our modernistic "artists" of Art IV. Like it?

What's this, a collage? Come again, Elmer!

Smell that? Student chefs simmer and stew, scorch and scald, on brand new stoves.
