

Among many jobs at Withrow filled by students are those in the lunchroom: cashiers, "strong men," and those who keep the serving tables filled. Then there are "master-minds," capably directed by Mr. Rhollans in the art of keeping Withrow's monetary affairs straight. Here, in room 131, the latest equipment is put to use in filing receipts and other business matter. Certainly these ambitious pupils take a great deal of responsibility upon their shoulders.
