

The vigor of the green years inspires them to climb upward.

Today's "Effies" busy and

Good seeds make good plants. Our **Junior High** pupils are the seeds growing in the rich soil of "Little Withrow." Here principal, teachers, and pupils work together to make sure these plants take firm root as they approach the maturity of Senior High School. In Junior High they make the transition from the more dependent life of grade school to the self sufficiency which is expected of them in high school.
