

Splash! Another mermaid goes under water.

Dolphin club is certainly not a dry organization, in more ways than one. These nymphs of Withrow participate bi-annually in their traditional water pageant, presented this year as "Holiday in Hawaii." In the off years, these water enthusiasts turn their talents and efforts towards the gaining of a life saving badge and the feeling of security and accomplishment which accompanies it. Here, education of water safety combines with fun to make Dolphin Club a worthwhile club.
