

MISS MARGUERITE RYAN
ASSISTANT PRINCIPAL

May you, the graduates of 1953, step over the threshold of Woodward High School into a world eager for you to assume the responsibilities of good citizenship. Be conscious of the many blessings awaiting those who take up the challenge with earnest hearts and an open minded realization of the rights of others. The world today needs individuals who can think, plan, and perform.

The members of the class who are completing the work of the Commercial Vocational program are fully equipped with skills and the knowledge which will fit them to take their places in Business and Industry, and to accept the challenge of work with confidence, and a feeling that they are able to meet the demands of the job at hand.

My sincere hope is that you will always uphold the standards and the traditions which your training has given you. May you always endeavor to broaden your learning by extended study and worthwhile experiences and may you establish friendships which will be lasting and beneficial.

Marguerite Ryan
