

RESERVE FOOTBALL 1953

Aside from whipping the Varsity into shape for their big schedule, the Junior Varsity have a schedule of their own to maintain. Their opponents are Jayvees of the other public High Schools. This year as in yester years, Woodward's Jayvees have been very impressive in their six outings, displaying good, alert, aggressive juniors and sophomores who will be the bricks that will go into the building of a varsity squad come next fall, along with the members not graduating. During the entire season theirs has been the occupation of the bench, adding depth, relief and comfort to the sixty-minute-men. Then their time will come to display their wares in action against the other teams. Here's hoping that next year's Varsity glorifies Woodward, by turning in a fine season of football, win or lose, with the help of the up and coming prospects.

This scene took place during one of the games last season. Coach Bathiany dishes out instructions to Walter Alford.
