

Nineteen hundred and forty-three marks the third year of the principalship of Dr. Leon D. Peaslee at Woodward High School. We, the graduating class, have come to know and respect him. He has painstakingly sought to instill in us the ideals of good citizenship of which he is a living example. We are proud and grateful to have had the opportunity of preparing ourselves for life under the leadership of one who so thoroughly understands the problems which we shall have to face in a war torn world.

This year our principal was faced with many grave responsibilities. In accordance with the wishes of our government, he has done everything within his power to make Woodward High School a part of the great national effort aiming at war-time education. He has given unstintingly of his time and energy. His ceaseless efforts in this and his deep concern for our welfare have impressed us greatly.

We have known Dr. Peaslee only a short time, but his unfeigned interest in our activities and our achievements has made us appreciate his presence among us. Under the able guidance of Dr. Peaslee, together with the co-operation of willing students, Woodward will take its place among the foremost schools of the nation.
