The purpose of the Visual Aids Corps is to show movie films that deal with high school subjects. The members of the Visual Aids Corps operate our two projectors and sound amplifiers. Their services are available to any teacher in the school.

In addition to this phase of visual education, the members of the corps have given much of their time to the showing of movies during auditorium sessions in day school and night school, for C. D. C. groups, and at educational conventions. Twelve experienced operators have already been awarded Visual Aids monograms.

The adviser and director of this group which is making such a vital contribution to modern education is Mr. Floyd. The members of the group wish to express their appreciation to Mr. Floyd for his excellent instruction and supervision during the year.
