

ASSISTANT PRINCIPAL

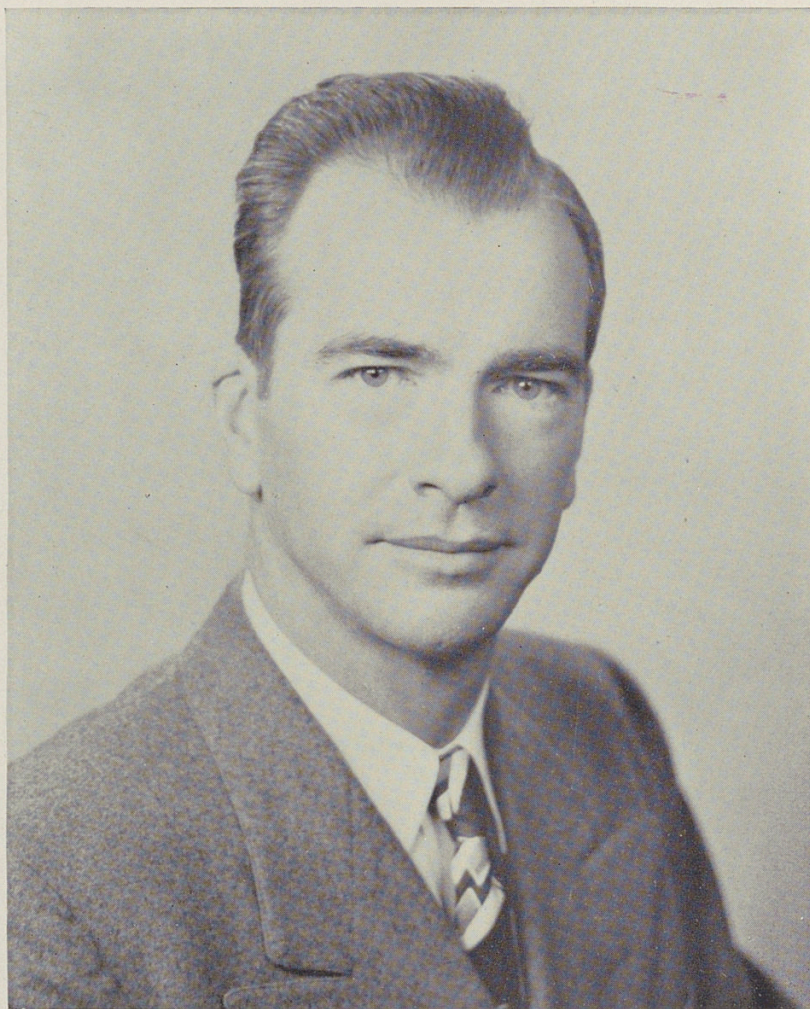

To you the graduates of 1954, I wish to extend congratulations and best wishes. May the experiences you have had as a result of your decision to finish high school be profitable to you. Your school, home, and community have endeavored to lead you to learn effectively and live a good life. May you in every specific situation conduct yourself in a way which will bring good to yourself and to all who are affected by your actions.

May each of you fully realize that you must accept responsibility for your acts. Time and time again you must contemplate the results that may follow from what you think and do.

I am confident that your future and the future of the community in which you live, will be influenced for good because of the attitudes, knowledge, and skills you have acquired at Old Woodward.

Best wishes to all.

G. H. Van Ness
