

# *Faculty*

Our debt to our faculty is great. Besides giving patient instruction in classes, they offered advice and guidance to us both as individuals and as we worked in groups in our clubs and activities. From them we have received not only the materials of learning but the incentive to learn. From them also we inherited much of the spirit of Woodward, since many of our teachers were themselves students here.

Our principal, Mr. Moeller, is an alumnus of Woodward and a former member of the teaching faculty.
