

MISS RYAN, ASSISTANT PRINCIPAL

To you, the graduates of 1952, I wish to extend hearty congratulations and best wishes. May the friendships formed in your school days at Woodward prove to be lasting and true and in accordance with all the traditions of your school. May the training you have received prove of great value in obtaining permanent employment, and may the habits formed prove an incentive for the obtaining of further education which in turn will make you good citizens of your city and your country.

May the graduates of the Commercial Vocational Department fully realize how valuable their training is to them and how well qualified they are, and may they be ready to meet each personal challenge with confidence and assurance.

My hope is that you will all, by experience, broaden your outlook in life and become leaders in your chosen field of work.

Marguerite Ryan
