Row 2—N. Shearer, P. Roberts, R. Young, R. James, W. Morris, H. Angel, G. Carnes, B. Russo, H. Dennis, Mr. Solomon, H. Gover, C. McLemore, V. Stephens, B. Hunter.

The Audio-Visual Aids Club was organized in 1941. In the fall of 1951 Mr. Solomon became its director, and this year Woodward has probably had the largest and best AVA staff in the city, with \$8,000 worth of equipment under its care. The AVA club uses twenty pieces of equipment each day — motion picture projectors, slide picture projectors, film strip projectors, opaque projectors, tape recorders, radios, phonographs, and public address system equipment. The club consists of 30 masters and 20 apprentices. The masters are experienced AVAiders, who are teaching the apprentices how to operate the machines.

In order to qualify as a master you must be able to operate every type of audio-visual aids equipment, and must have served in the organization for at least a half year. The students who make up the staff give up their study halls in order to do this work. This year for the first time they received pins in recognition of their service. This year's officers were: President, Ray James; Vice President, Jack Samples; Secretaries, Virginia Stephens and Bernice Hunter. Officers elected for 1952-53 are: President, Howard Angel; Vice President, Arnold Gregg; Secretaries, Virginia Stephens and Bernice Hunter.

LUNCHROOM SQUAD

Row 1—E. Williams, A. Frazier, G. Whitaker, G. Stallworth, R. James, J. Somori, R. Claunch, W. Evans, R. Kelley, G. Franklin, C. Marlin, R. Byrd.
