

We, the graduating class of nineteen hundred and forty-seven, wish to make use of our Annual to bid farewell to our Principal. It would be impossible for us to take leave of him individually. Our number is too great. Time would be wanting for us to express to him our sentiments on this occasion of our graduation. So we use our Annual which will ever serve as a memorial to our Class.

We wish to express to our Principal, Dr. Leon D. Peaslee, our sincerest thanks for his great efforts in our behalf. He has done his utmost to help us through our years at Woodward. He has given a major part of his time and energy in unselfishly aiding us to solve our problems. He has helped us over the many difficulties which we have encountered in our school career. He has not spared himself in helping us to prepare ourselves for our part in life. We have become his ardent admirers. We take pride and pleasure in attempting to live up to his high ideals of good scholarship, worthy citizenship, and enlightened brotherhood. He has helped us to learn and appreciate the ideals of democracy so inherent in the "Woodward Spirit" which he exemplifies in his role of principal of our school.

As we leave the halls of Woodward High School, our farewell to Dr. Peaslee embodies not only our appreciation of his counsel in the past, but also our sincerest wish for his continued success.
