

1995 MCC CHAMPIONS

This year the basketball team set the goal for the State Championship again. To accomplish their goal they practice hard everyday and start building a winning mentality. When the season started each member of the team had that winning attitude and began to accomplish their goal. They won many games and lost a few. They were MCC champions for their conference. None of these goals could be accomplished without Coach George Jackson's determination and the other coaches. Congratulations Boys Basketball team.
