

NEY'S GOLD SOLDER

not only flows easily, but in a rare degree combines softness and great strength.

NEY'S GOLD PLATES

are constantly receiving unsolicited praise for their high finish and uniform softness and toughness.

NEY'S GOLD CYLINDERS

If you are not already using them, a trial will convince you of their excellent qualities.

GOOD CLOTHES

NO other large clothing manufacturers are able to give the same personal attention to every detail of the making of suits that we can give. We *know* what the internal construction of our suits is because we make *everything* in our own factory. That is a greater advantage than the public at large may stop long enough to consider; but to us it means the absolute knowledge of what goes into the hidden details of making a suit of clothes or an overcoat.

When we guarantee a garment we know that it is right.

BROWNING, KING & CO., Cor. Race and Fifth Sts.
