

## The Trend Is...

**D**iversity in clothing is definitely found at Sycamore! When walking down the halls, you see a wide arrange of styles. what one person thinks is a fad, is a definite no-no for another.

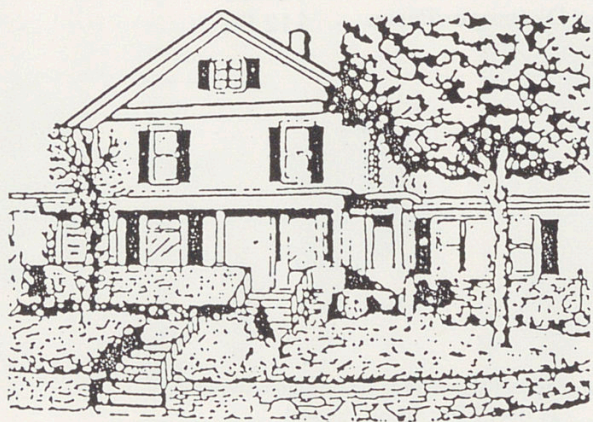

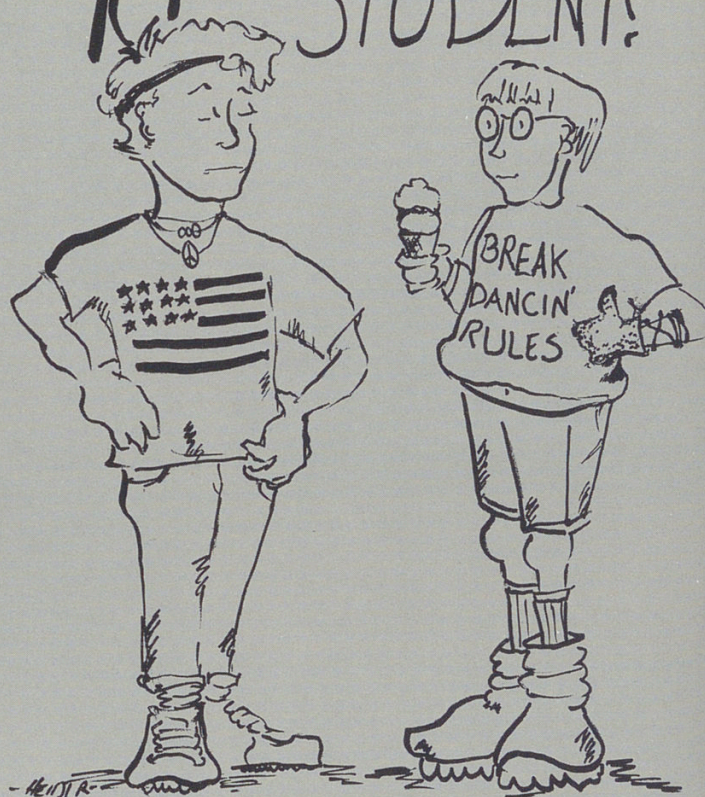

Fads can start on a moment's notice. What's appealing to one person one day, can be seen on others the following day. Multiply this by a week, and the

majority of the students will be wearing the new style. There are always exceptions to this rule. The groups that don't like a particular "trend" will usually start their own.

Many people have their own style. So if you like it, wear it! Don't be suprised to learn one day, that you are a trendsetter at Sycamore.
