

SPIRITED HEARTS

By: Caitlyn Jarrett

A cheerleader is not measured by the height of her jumps, but by the span of her spirit. Cheerleading embraces the spirit of the Aves, creating everlasting friendships that remain in the hearts of many. "I had such an amazing season with this squad! For my first year of cheer, I have been so blessed to meet so many new people. I am extremely grateful for the amazing memories I have made" **Payton Hines, 9.**

As a senior, **Grace Hall** reminisces upon the memories created over the years, "I couldn't have asked for a better basketball season for my last year of cheer. The bus rides to the away games were probably one of my favorite memories. I loved just talking and laughing with all of my best friends. Even though we were on a school bus, being surrounded by the love of my teammates was so fulfilling!"

THE BRAVE AVES

“

Every single girl was so dedicated to being the best they could be every game, and no matter the score, they never failed to support our Aviators!”

-Sabrina Ramsey, 11
