

TAKE IT TO THE HOOP

By: Emma Rice

Everyone on these basketball team takes the sport very serious. They work impressively hard to move up on the team ladder just to ensure their spot on varsity or even to make it to captain. The team supports each other through anything. Injuries, family issues, or even just a bad day the team is there for them. This season the

team worked really hard and tried their best, even if they didn't win every game. "We went through a lot of adversity through the year but came together and made a very good team. We came into every game thinking we could win and played like it. That's why we were successful." Said **Nathan Kissela, 10.**

BALL IS LIFE

"I've been playing basketball since I was four to five years old. I started playing for the school in 8th grade. It's been a great experience. So far I love the coaching staff here, and can't wait to see how they are going to push us next. They all possess so much knowledge and skill that it is apparent that they know what they're talking about. On top of that, they are just good to talk with, just about how you have to do you need help with anything," said **Alec Van Hoose, 10.**
