

## A CELEBRATION OF KNOWLEDGE

The Alphabet Round: a fun, yet stressful test of knowledge. Following the category round, including mathematics, history, and fine arts, both competing teams receive the same exact questions, with all

answers beginning with the same letters. Teams have four minutes to answer all questions, and in desperate times rely on their go-to answers: Barack Obama and the Musical Cats. When not competing, **Arun Kamath, 10**, **Niyati Kanchan, 10**, **Anupama Marayana, 11**, and **Theo Eborall, 11**, practice the questions.

1. **Senior Griffin Roof** has been competing since freshman year. Roof is a key competitor during the Alphabet Round.

2. **Junior Hari Iyer** quickly writes answers competing with varsity in the final round.
