

GOLDEN GOAL

By: Caitlyn Jarrett and Alyssa Jones

Two hour practices, 6 days a week, the Lady Aves lacrosse team truly represents the impact hard work and determination have on the outcome of a season.

Madeline Davis, 12, has been a Varsity player since her Freshman year for exhibiting tremendous skill and perseverance; two traits that led her to endless golden goals. "Being a part of the lacrosse team has been such a lively experience for me. At times, the team would run

into obstacles, but that never changed how hard we worked. I love the determination the team exemplifies, even in times of struggle, because it illustrates how our team is fueled by hard work.

Growing up with this team has created amazing friendships that remain even off of the field. I'm so sad to see the season near its end, but state still awaits us after winning the GMC championship!"

just reLAX

Senior Ellen Connolly said, "This year's lacrosse team has an extreme amount of potential. We are all hardworking, determined and strive to reach the same goal: state! Yet we always make each other laugh and know how to keep the game fun. These ladies are my family and I wouldn't want to make history (being the first GMC champs) with anyone else. From being on this high-caliber team, I've truly learned what it means to be great."
