

REWRITING HISTORY

By: Alyssa Jones

The boys lacrosse program had a lot of changes that came along with the new coaching staff.

The boys were pushed to their limits and worked harder than they ever had in the past. New coaches came along with new rules and expectations.

Coach Jeffery Wolkoff said, "We worked on fundamentals, preached

hard work, and no one handed groundballs or behind the back passes!"

All of these strategies were put in place from day one and made the team work that much harder from the start of it all.

In games, these expectations were met which lead the team to a winning season with multiple records that got broken.

1. Junior Bob Wise sets up for a save.
2. Senior Jackson Rudd watches the faceoff set in place.
