Teaching career: 41 years

Sycamore career: 40 years

The best part of my job is the kids. I love teaching kids...about American history. Everyday is a funny memory when you're a teacher. The thing about teaching is you never know what each day will bring. I've been working grounds at the high school since I was in high school myself, and once I retire I will work full-time outside cutting grass...plus, I'll travel a little bit. There have been Civil War battlefields I've never been to, I'm gonna go see them. My wife and I are gonna make a train trip across the country and time with my grandkids. My advice to students is to enjoy high school, it's the best time of your life, and you can't be in a better place than Sycamore.
