

This season was definitely the best out of my high school career. I'm sad that this is the last year I will be playing in the band.”
 -Brittany Stephens, 12

“Band is a great experience because you’re playing with a wide variety of people. When you all play together you’re surprised what great sound you can make.”
 - Dana Bahir, 11

Band is absolutely amazing. It’s one of my favorite things to do at school, especially if we play something popular and fun.”
 -Ellen Farr, 11

Conducting an entire band is not such an easy thing to do, and Lauren Levy, knows this. Levy tried out for her position last spring in front of Mr. Swift. The try-outs involved conducting the band and following the lead of the band director.

Band has once again stepped their game up by introducing a ten foot wheel that spins. On the wheel were Samuel Snow, 12, and Ethan Burns, 12. Snow and Burns played their solos while the wheel continually spins, for the song Vertigo.

Looking like pros, the band stands in their assigned spots like soldiers. The band kept the crowd quite entertained while the football players took their half-time. To keep their cool, there was always sheet music attached to their instrument to relieve some of the pressure.
