

"Being apart of a team is like having a whole new family, you get to grow together and build relationships that lasts a lifetime."

-Zoey Powers, 9

THROUGH THE YEARS

My dad motivated me into joining soccer, and I was put into soccer at the age 4. My teammates, I love how encouraging they are. We play pretty well as a team, but obviously there are some harsh moments, and we have to talk to figure it out. I have been planning on playing soccer throughout high school. If I had never started playing soccer I would have stuck with swimming, I am a big swimmer, and I'm also swimming this year. But without soccer, I would definitely be lost."
