Q&A with the Boy Junior Varsity Soccer team

How does the Sycamore team differ from other teams you have worked or played on?

Coach Henry Reid: "The junior varsity boys team (JVB) is a bit different from other teams I have worked with because we get to focus on building the foundations of Sycamore Soccer. Unlike some of the upper level teams, we do not worry about wins or losses. This way I get to focus specifically on supporting the individual and the growth of our player throughout the season."

Coach Benjamin Hasselbeck: "This team really differs from others I have coached because all these boys play at a pretty high level and so tactically I am able to get into the more in-depth side of things and it is amazing how much they understand and are able to quickly adjust."

Andres Espana Lara, 10: "The team was since the beginning. We never left anyone out and always stuck together. There was never any trash talk between us and we treated each other like family."
