

breaking records

Having fun no matter the situation

The Squadron placed 5th in states this year! They gave it their all and had lots of fun in and out of the pool. Not only did they get that but they broke lots of records! With lots of energy always up in the pool the boys make everything fun! From days where they do harder sets to easier sets they made everything fun and worth it. The boys had to take on big roles and fill places from the seniors that left last year. The Squadron brought it and gave it their all this season!

“Hanging out with the team is the best. I love the all of the team bonding activities we do! I like playing on the wings and flats. I can cut in on people and I can see the whole pool and don’t let other players behind me.”

HAYDEN GORDON, 10

“Much of water polo is playing the standards of the ref, if the ref is ok with you drowning the guy in front of him, great, have fun! But if the ref won’t let you get anywhere near someone, then don’t touch him.”

ALEXANDER DEIHL, 12

Peter broke the single season goal record. He now is the leading scorer with 154 Varsity goals this season. “It feels amazing to break the goal record, but I couldn’t have done it without the help from others throughout my 4 years of high school.”

**PETER
HAUSFELD, 12**

Chris broke the single season assist record with 49 assists as a goalie. “The goalie can cross half and participate as a field player, which most sports don’t have a rule like this so it leads to lots of interesting situations!”

**CHRIS
GALL, 12**

Adrian broke the single season assist record for field, he is at 52 assists. “My goal this season was to become a key player in and out of the pool, and to break the most assist in a single season.” Adrian did just that!

**ADRIAN
BANKE, 11**
