

# starting the year off **fresh**

*Freshman Camp kicks the year off with an energetic start, setting the tone.*

As always, the school year started with Freshmen Camp, run by Mr. Tilton. All of the freshmen spent their first day touring the school and finding all of their classes. The best part, in Mr. Tilton's opinion, is "...how much energy there is and how it carries through to the other school events." As of now, he thinks that the current grades with the most energy are the Juniors and Seniors. **Elizabeth Johnson, 9** says "I was lucky to get Paige Harris and Ella Wooley as my Freshman Camp counselors, they were really good and showed me what school spirit is about! Go Aves!"

"With my freshman camp counselors, they gave us all alien ears which started off the day with lots of good vibes. They were energetic and I was happy to have them as my counselors."

**Carter Allen, 9**
