The new principal shares his goals for the year at his new school.

This year, we welcomed a new principal, Mr. Porter. He was the principal at Gamble Montessori High School before this, and he has spent several years working in education. "I am so happy to be the principal here. I feel like the luckiest man on Earth," he said. Sycamore is his neighborhood school, and he is very excited to be working at the school his children will eventually be going to. Mr. Porter's goals for this school year are, as he put it, "safety and academics." However, there are a lot of other aspects to being the principal that he is excited about. "I've really been enjoying going to football games. Football is a sport I played when I was younger, so I enjoy watching others. I also enjoy going to all of the clubs," he said. He is all for interacting with the all the students, and we are lucky to have him!

He brings change and is positive for the school."
