

too quick to boys cross country quit

Another great season for the Boys Cross Country team takes place as they fought through thunderstorms, heat-warning weather, Yellow Belly Wednesdays, and even an appendix removal throughout the course of their 2022 season. This "brotherhood" of runners really shows true team harmony with many traditions, bagel outings, music and of course, amazing meet days. "My last season got cut short unexpectedly but that didn't stop me from having an amazing time with the brotherhood."

Says **Patrick Dauenhauer, 12**, who is the top runner on the team with a PR of 15:59 for the 5K.

THE AVES GO BLUE

Each year the cross country team raises awareness and donates to a different organization each year. This year the team chose Matthew 25 and helped out by volunteering at the building while mixing paint and sorting toiletries. Varsity wore blue uniforms to help spread awareness at some of their meets.
