

where the **actions** at *girls water polo*

The Sycamore Varsity Girls Waterpolo team has dealt with major obstacles since the start of their 2022 season. The girls had lots of uncertainty and doubt, but with the help of their new coach Tom Anderson, they were able to overcome the hardships. Ferdoos Baghbanian 12 gives us insight into their new coach by saying, "Tom put together our broken team and forced a new attitude onto us. Driving to Princeton daily, we were determined to leave everything in the water. Matching Tom's optimism+confidence we quickly dominated the south division ultimately winning third in the state" (Baghbanian 12). The girl's Waterpolo team has become closer than ever as their season has progressed. They have learned to trust and look out for each other in and out of the water. You know what they say, there is no 'I' in Waterpolo.
