## art classes

**ANNIE MILLER, 10:**

**CELINE APAEZ, 11:** "The hardest part when doing any art project, but especially this one, is having patience. If you rush the process, you miss important details that are vital to creating amazing artwork."

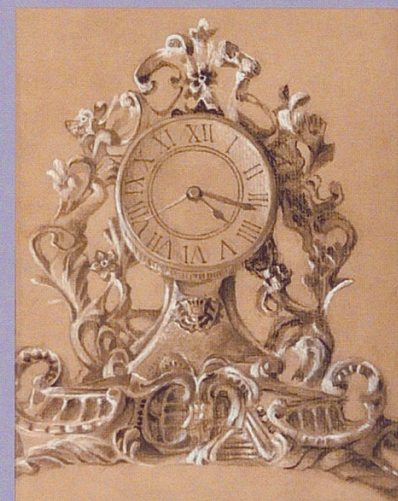

**STELLA BAKER, 10:** "Graphic Design is a great way to learn about computers and design. It also helps you to be able to take advantage of technological opportunities. It is such a fun class."

**ABBY SHEARD, 10:** "I am in Art II 2D and my favorite part is getting to be creative with my friends."

**NEHAL KSHIRSAGAR 10:**

**CHRISTOPHER SOTROPA, 9:**

"Part of what I love about creating art is that I get to express myself and my interests. I incorporated my favorite NFL player, Ja'Marr Chase, in this piece. The hardest part of creating artwork (for me) is the beginning. Finding a great idea can be difficult in itself, but putting that idea down and knowing where to start can be just as challenging..."
