# TIME AFTER TIME

When we learned that the 2022-2023 Yearbook would be Sycamore High School's 80th edition, we couldn't resist leaning all the way into a 1980s theme. It seemed like the perfect chance to create what might be our most vivid yearbook yet: "Time After Time," a nod to Cyndi Lauper's iconic 1983 hit. Look for bright '80s-style graphics and color palettes on these pages—along with the occasional '80s-specific pun.

"Time After Time" is also our way of looking back at eight remarkable decades of students, staff, and families all working together to build our community. So in addition to coverage of all the teams, clubs, and classes that make Sycamore great, we filled this year's book with throwbacks to times gone by. We searched our archive for images of what it was like to attend Sycamore High School back in the day, and what we found was both different and familiar. Because though much has changed since that first edition, many of the basic realities of student life remain: Studying for tests, cheering on your team (Go Aves!), and hanging out with friends.

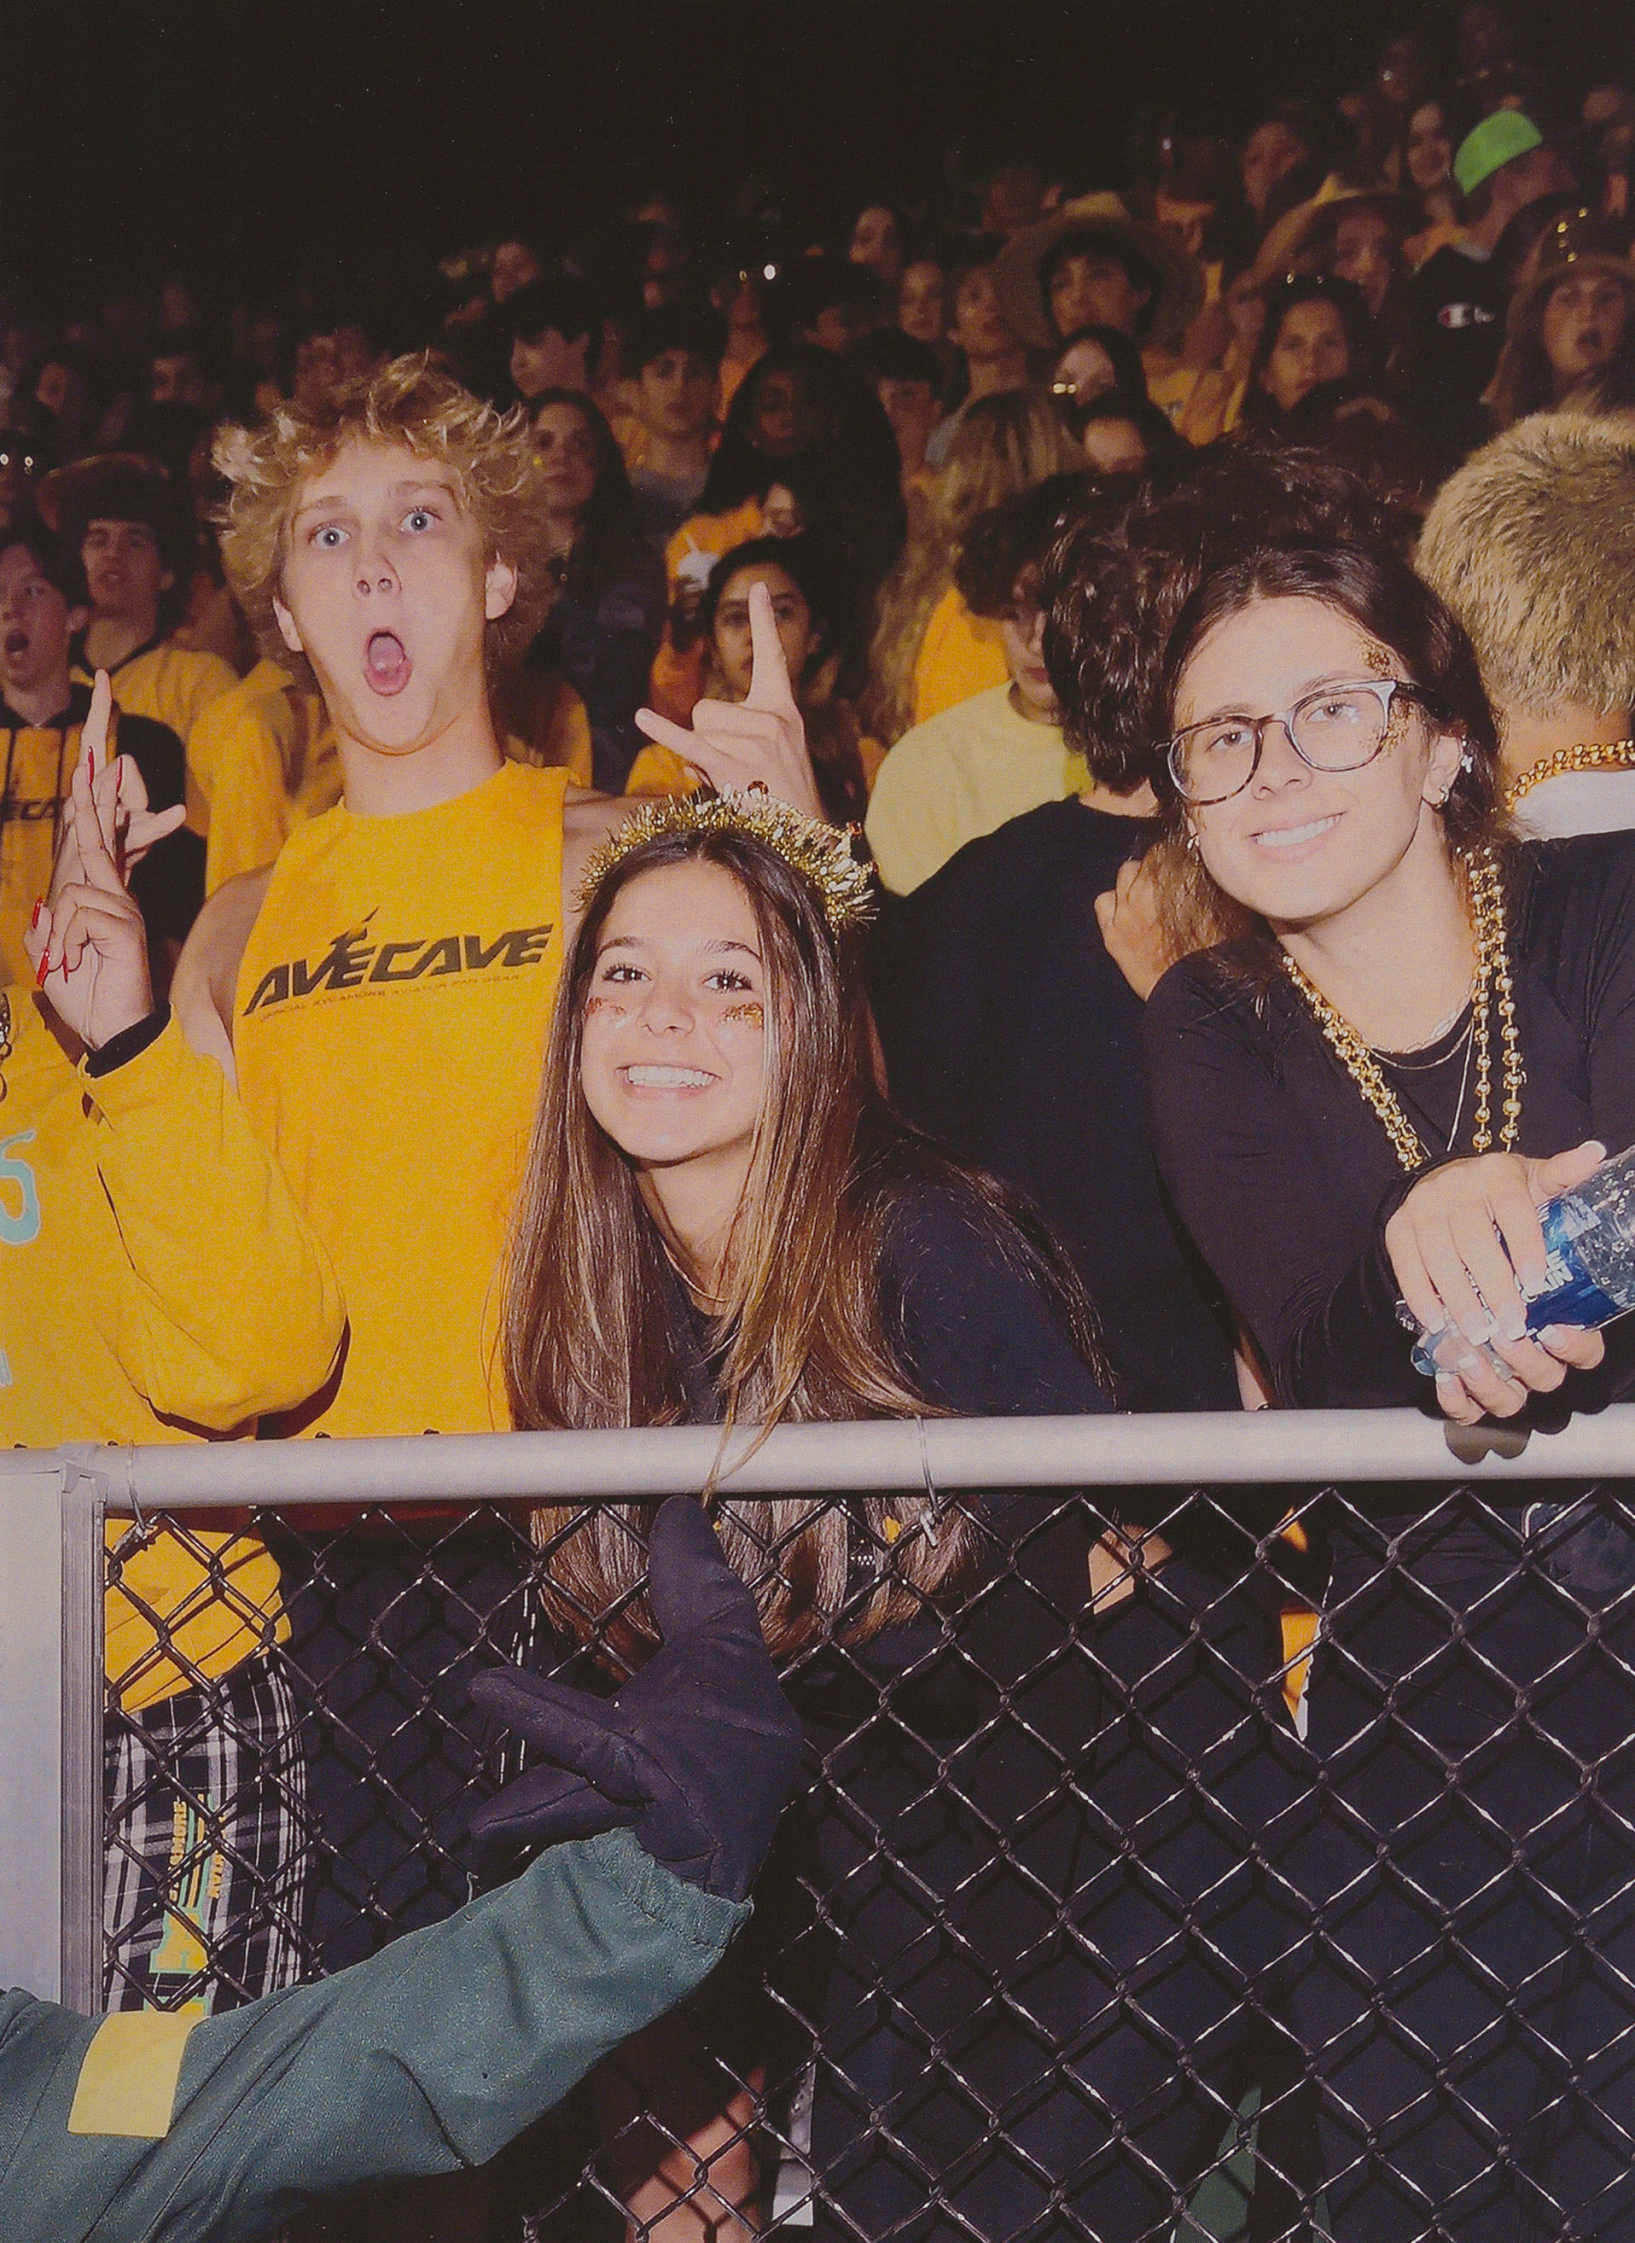

Finally, we hope you'll remember that this publication is student-run and student-made. We work hard all year to bring you the best stories and memories about our community, but we're also learning along the way. If we made any mistakes, we deeply apologize; please know that they were unintentional. We strive each year to be better at the important work of keeping track.

We sincerely hope that you enjoy this trip back in time!

# starting the year off **fresh**

*Freshman Camp kicks the year off with an energetic start, setting the tone.*

As always, the school year started with Freshmen Camp, run by Mr. Tilton. All of the freshmen spent their first day touring the school and finding all of their classes. The best part, in Mr. Tilton's opinion, is "...how much energy there is and how it carries through to the other school events." As of now, he thinks that the current grades with the most energy are the Juniors and Seniors. **Elizabeth Johnson, 9** says "I was lucky to get Paige Harris and Ella Wooley as my Freshman Camp counselors, they were really good and showed me what school spirit is about! Go Aves!"

"With my freshman camp counselors, they gave us all alien ears which started off the day with lots of good vibes. They were energetic and I was happy to have them as my counselors."

**Carter Allen, 9**

# profile on porter

*The new principal shares his goals for the year at his new school.*

This year, we welcomed a new principal, Mr. Porter. He was the principal at Gamble Montessori High School before this, and he has spent several years working in education. "I am so happy to be the principal here. I feel like the luckiest man on Earth," he said. Sycamore is his neighborhood school, and he is very excited to be working at the school his children will eventually be going to. Mr. Porter's goals for this school year are, as he put it, "safety and academics." However, there are a lot of other aspects to being the principal that he is excited about. "I've really been enjoying going to football games. Football is a sport I played when I was younger, so I enjoy watching others. I also enjoy going to all of the clubs," he said. He is all for interacting with the all the students, and we are lucky to have him!

He brings change and is positive for the school."

# hot dog!

*The seniors get served at the annual cookout to celebrate the start of the year.*

The Senior Cookout is an activity where the PTO provides food so the seniors can grill and chill outside. It is a tradition that every generation of seniors gets to enjoy. **Analiese Burks-Maye, 12** says, "Senior Cookout is where all the seniors are all out in the old school parking lot and eat hot dogs, and other tasty food. They chit chat with their friends, and it's overall a great experience." The cookout is super fun and all the seniors are able to catch up with their friends, and just have a great time together.

## What is the Senior Cookout?

"Senior Cookout is during lunch where the senior class get to go outside and the administration and PTO parents grill hot dogs for us. They have chips, snacks, and many more. It's a time where the senior class get to catch up with their friends, and have the time of their lives."

**Ella Wooley, 12**

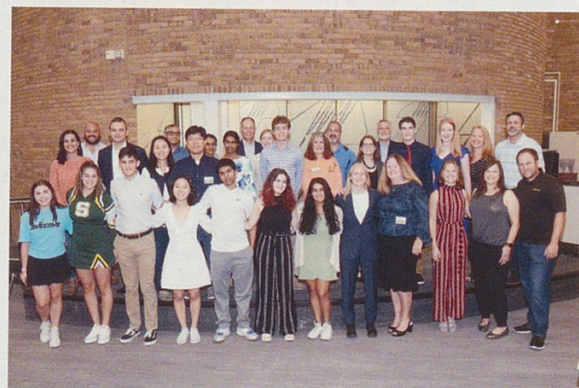

## What was your favorite part of the cookout?

"My favorite part of senior cookout was getting to enjoy an amazing meal with my friends, while being outside. It was a great break from our normal routine, and opportunity to enjoy nice weather. It was super cool to see how much camaraderie our grade had too!"

**Ashley Walker, 12**

# FIRSTS AND LASTS

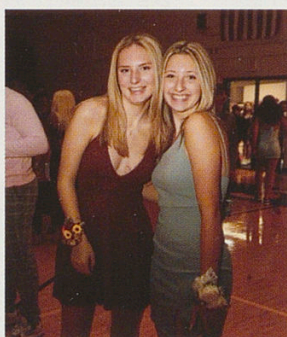

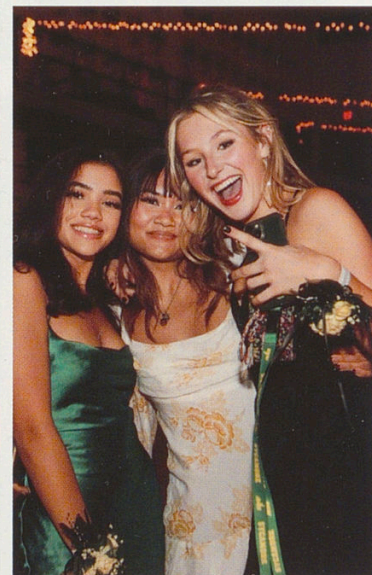

The youngest and the oldest Sycamore High School students share their perspectives on the homecoming dance.

**CHANA HOREWITZ, 9:** "My first homecoming was great. It was even better than I thought it would be. I had an amazing time hanging out with all of my friends at the dance. I don't think there is anything that I would want to do differently in the future."

**OLLIE PLETZ, 9:** "My first homecoming was spectacular. It was very fun. Something that I would do differently in upcoming years is dance more, and be more involved."

**DELANEY GREVE, 12:** "This homecoming was probably my favorite. Since we did not have a homecoming my sophomore year and were interrupted by the rain last year, I think we definitely made the most of it this time. My favorite part was dancing with my friends."

**HAYDEN CHOICE, 12:** "This homecoming was fun and I had a blast dancing with all of my friends. It was definitely less cold and rainy than the last, which was nice. My favorite part was seeing and taking pictures with friends."

# fright night

senior halloween

Senior Halloween is a fun event that is celebrated every year. During the school day, all of the seniors dress up in their fantastic halloween costumes. They have fun dressing up with their friends and have a spooktastic Halloween! The different costumes that you would see in the halls and the creative works of our seniors are really mind-blowing. There are so many different variations of seniors who dress up in groups, which makes it more exciting. There are many unique costumes that are presented to us, and that is one of the best parts for the underclassmen who get to watch as our seniors shine.

"The best part of the day was planning our 'Queen's Death' performance for the parade, being able to hangout with my friends the entire day messing around and having fun in such a unique way is something I'll never forget."

Scott Wolter, 12

"My favorite costume that I saw was the queen and her guards. I liked it because it was unique and the most entertaining. If I could do senior halloween again, my friends and I would be White Chicks."

Ananiese Burks-Maye, 12

# a variety of talents

The Sycamore Variety show provides a night of entertainment for it's audience.

The incredible talent at Sycamore High School was put on full display during this year's Variety Show. From soloists to acapella groups, the various performances blew away the audience. "It was fun to perform with my class as well as performing a duet with one of my close friends, and both songs were from 'Rent.' I love being on stage, whether it's singing with a group or by myself," says **Maria Shomo, 12.**

## tickle me pinktober

Sycamore Students raise awareness for Breast Cancer throughout October.

Pink—a color associated with comfort, healing, hope, and courage—is a symbol for breast cancer awareness. During the month of October, many sports honor survivors, those fighting, and those we lost due to the disease. The cheerleaders lead the Ave Cave with pink pom-poms, and the football players wear high pink socks with their uniform. Our volleyball team hosted their annual Volley for the Cure and raised money for the Susan G. Komen foundation with each girl playing for someone affected by breast cancer.

# strings and things

*The Orchestra had a successful concert with beautiful music.*

"I have really enjoyed being in Orchestra the past few years. Not only does it give me a break before my hard classes, but it has also allowed me to branch out and meet new people."

**Calista France, 11**

## gourds galore

*Outside of the classroom, friends get together to participate in this fun fall activity!*

"I really like being able to do an activity with a group of friends that's just kind of like a little more messy and unconventional. And it's just a really great way to spend some time outside in the fall doing an aesthetic little activity that gets you in the mood."

**Regan Boord, 12**

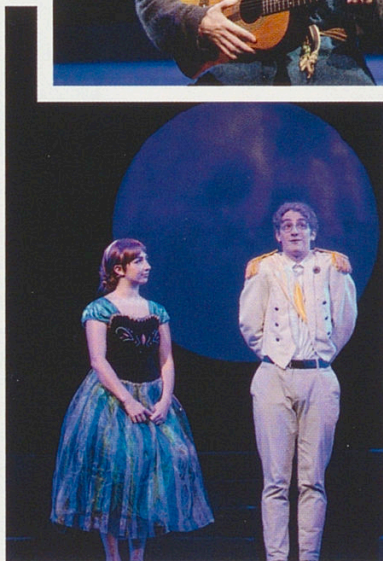

# frozen in time

*The Aves Theater goes all out with an amazing fall show.*

Winter came early when Aves Theater put on a production of "Frozen Jr." this fall. With the connection of two sisters, fun musical numbers, and some Disney magic, this show was a hit. It was the most attended and highest-grossing show ever put on by the theater director, John Whapham. **Anna Ralston, 11**, who played the role of Young Elsa, says "I enjoyed creating a bond with the royal family both on and off stage, it was a really fun experience and I'm so grateful for the friendships I created!"

## BEHIND THE SCENES

*An inside look at two long time "techies" in the Aves Theater Program.*

No one really realizes the work the tech crew puts in to make the show stand out, as there are so many aspects of the show that happen because of tech. So, two of Aves Theater's "techies" put it into perspective. **Nikhil Weaver, 12** and **Shane Werthaiser, 12** have been working in tech all throughout high school together. When working on Frozen, the sound aspect was definitely the hardest since there were so many actors, which resulted in mixing. "We have to blend the music and the mics so it is at a great tolerable level of sound for the audience," says Weaver. Over the years Werthaiser has taken over lights and Weaver has taken over sound to create the perfect dynamic and, of course, the perfect friendship. "Now here we are today, two people with our own expertise, that will always fight to do better than each other. It remains a uniquely strong bond that carries us through 40 hour weeks, post rehearsal problem solving, and the shows where we get to see everyone's work come together," says Werthaiser.

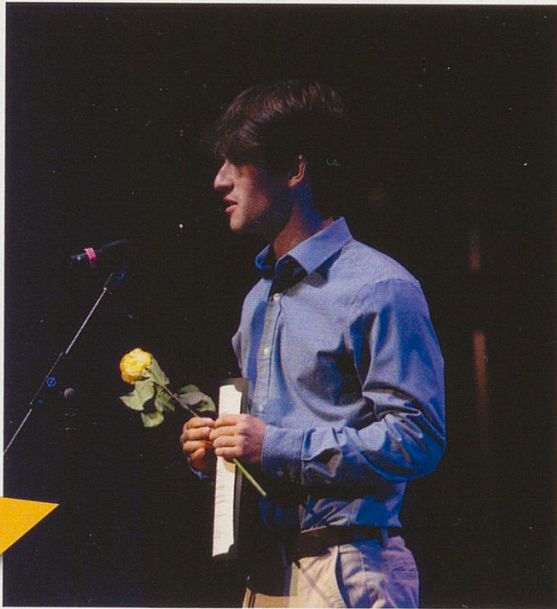

# night of **honor**

The National Honor Society held it's annual Induction Ceremony for new members.

"The ceremony was so impactful for me and all other inductees as it gave recognition to deserving role models of the Sycamore Community."

**Miles Pishotti, 11**

## THE FAB FIVE

The five NHS officers create a wonderful ceremony for the 2022 Inductees.

While the NHS Induction Ceremony is a very important night for inductees, the event wouldn't have been so special without the five officers. These five girls show incredible leadership, intelligence, strength, and naturally, a great bond. "I've gotten to know all the officers so much better this year as we spent a lot of time planning the ceremony, and I am so proud of us for successfully planning this event!" says **Lindsay Ruskin, 12**.

**Leen Ciba, 12 Lindsay Ruskin, 12 Nabiha Alam, 12 Nicole Payton, 12 Ria Parikh, 12**

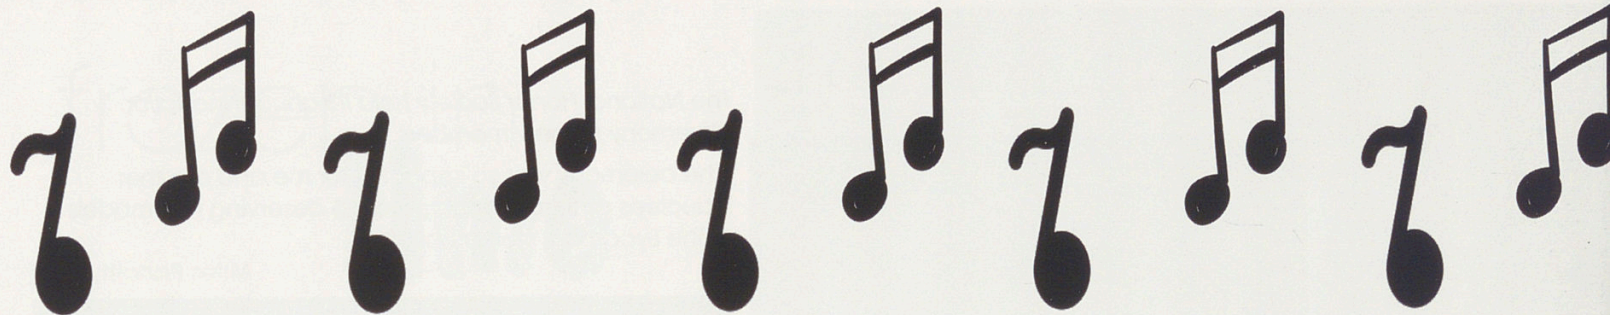

## A FESTIVE FRIENDSGIVING

A group of friends come together for a lunchtime Thanksgiving celebration.

As Thanksgiving Break rolled around, this senior group of boys decided to celebrate early with their own Thanksgiving feast within the Commons! Complete with homemade dishes such as pie, mashed potatoes, and even a whole turkey, they set the table with fancy tablecloth and fresh rolled silverware while also dressed in their best attire. "Pies really symbolize our friendship at this lunch table. That's why I made them!" says **Patrick Dauenhauer, 12**.

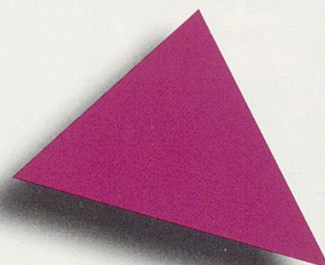

"My favorite song is 'Colors' by Amine. The best part of the song is when it says, 'I wana be happy like when I find a Starburst that's colored pink.'"

**Asher Hartz, 10**

"One of my favorite songs right now is 'DOLLAZ ON MY HEAD' by Gunna. My favorite part of the song is when it says, 'Black on black new phantom, in the backseat sippin' red.'"

**Chase Terrell, 11**

"My current favorite song right now is 'Oldie' by Odd Future, and lyrics that I like are when it says 'Fire what I talk but still cooler than an otter pop'"

**Kerstin Koenig, 10**

"When the spirit gets down we love to call the do it cheer to interact with everyone in the stands," says **Emery Hines, 10**. "We love calling out cheers that deal with the crowd like the banana cheer as well. It's fun to interact with everyone while keeping the spirit up." The high schoolers teach cheerleaders in grades kindergarten through sixth different cheers, routines, and how to have fun, spirited smiles. The little girls came and cheered with the Lady Aves throughout the first half of the homecoming game. "They are the cutest little girls, and they have the most spirit I've ever seen! It was a very cool full circle moment since I was a Little Ave with my sister when she did cheer. It really feels so amazing to take on that leadership role," says **Tessa Wittenbaum, 12**.

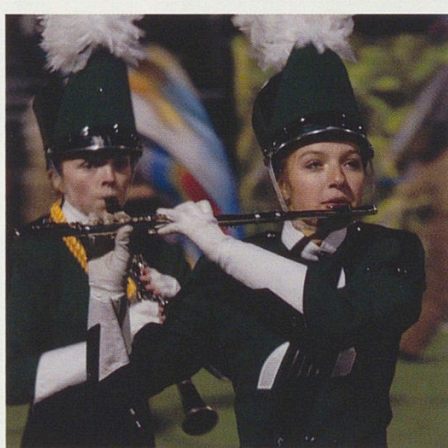

# welcome to the jungle

## marching band

After two years of "City Lights," Sycamore's band of adventurers descended upon an entirely new jungle this year. "Into the Jungle" includes three movements, a pre-show and percussion feature. "It's our first year back from Covid, and it's been really cool to have a brand new big show this year. Our music has been a lot harder which I love...it's been so great to have a higher difficulty of music." In addition to the more complex composition, the show incorporates props built by parent volunteers. "...We haven't had props since my freshman year, and they're such a nice visual element," says **Elliana Jobe, 12**. The storyline is further incorporated by vocals in-between the movements. "It's also really sick that there's a story line with vocals that add to the whole experience of the show," says **Minjee Kim, 11**.

McFall expresses how tough and stressful the job can be at times, however "it is 100% worth it!" While the drum majors play an important role in the band, "the marchers make the music, we just give them the time," says first year drum major, **Noah Lin, 10**. "This community of working together to make music and becoming a family makes the marching band so special."

## GETTING HYPE

The Lady Aves Varsity Soccer team has a bond like no other. Through hot practices and rained out games, nothing can dampen this team's spirit! This year, the girls have amazing chemistry; something that is an extremely important component to having a successful season. "We have a great team dynamic... which makes it enjoyable to come to practice every day," says **Nicole Payton, 12**. This year's unity of the Lady Aves not only makes the games more fun, but it also gets the team pumped up. Payton has been a part of Lady Aves soccer for four years, and from her experience, this year's team wins the title of most spirited. "We get really excited before games, I think because we all like being around each other," she recounts, "so we're excited to play and eager to win."

*jv boys soccer*

"My favorite thing about soccer is being able to play with the team. This is my first year playing but I enjoy it so much. Someone, I can always count on is Andy Wei, when the ball is far out he will always hustle to recover them. This season my favorite memory is watching our goal-keeper Nicolas Schnelle make a goal."

**Brogan Baum, 9**

"This year my favorite part of the soccer season was playing in games; they are very fun and competitive. Liam Bennett is someone I can always count on when on the field."

**Maxim Rozenfeld, 9**

# ACE IN YOUR FACE

*Caroline Shomo is a freshman volleyball player on the Varsity team. She was asked a few questions about her experiences.*

**Q:** What were your first thoughts when you came to the volleyball program?

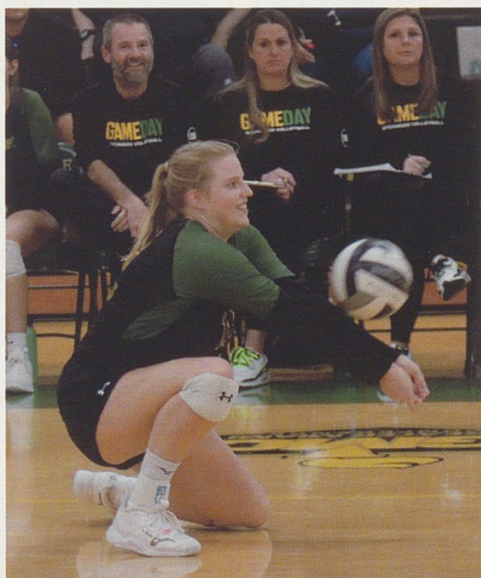

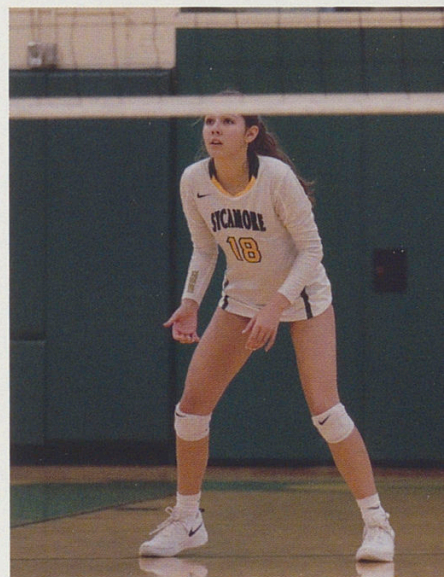

**A:** Everyone at the high school program was very welcoming. The atmosphere was very similar to the one at the junior high. However, it is different in many ways.

**Q:** Do you feel that there is any type of pressure being the new kids on the team?

**A:** Since you are playing & practicing with almost all older kids, it can make you feel as though you are not allowed to make any mistakes. It is also very hard to not try and compare yourself to the upperclassman.

**Q:** Who is your inspiration/who made you want to play volleyball?

**A:** My sister Maria Shomo, 12, made me want to start playing. I saw her play while I was younger and really grew an interest in volleyball. She is also my true inspiration because she has really set an example of who I should strive to be.

## BITTER SWEET

*The only senior on the team shares her perspective on her final season.*

**Ashley Walker, 12**, takes on her last season full force, being that she is the last senior standing. She feels as though there is a number of certain responsibilities she must obtain. Ashley says, "It is a bit of a challenge to try and keep everyone on the team positive and to not get down on themselves" (Walker, 12). Those are just the responsibilities that she has on the court. However, off the court she has just as many or even more for that matter. Ashley is a four year Varsity player and says her favorite memory was, "going to the lake house my freshman and senior year, it was a full circle moment to experience it my first and last year of High School" (Walker, 12). After high school, Ashley decided she will not play in College, but plans to play recreational+club volleyball. Ashley is sad to be saying goodbye to the program but knows that there will be so much more to come.

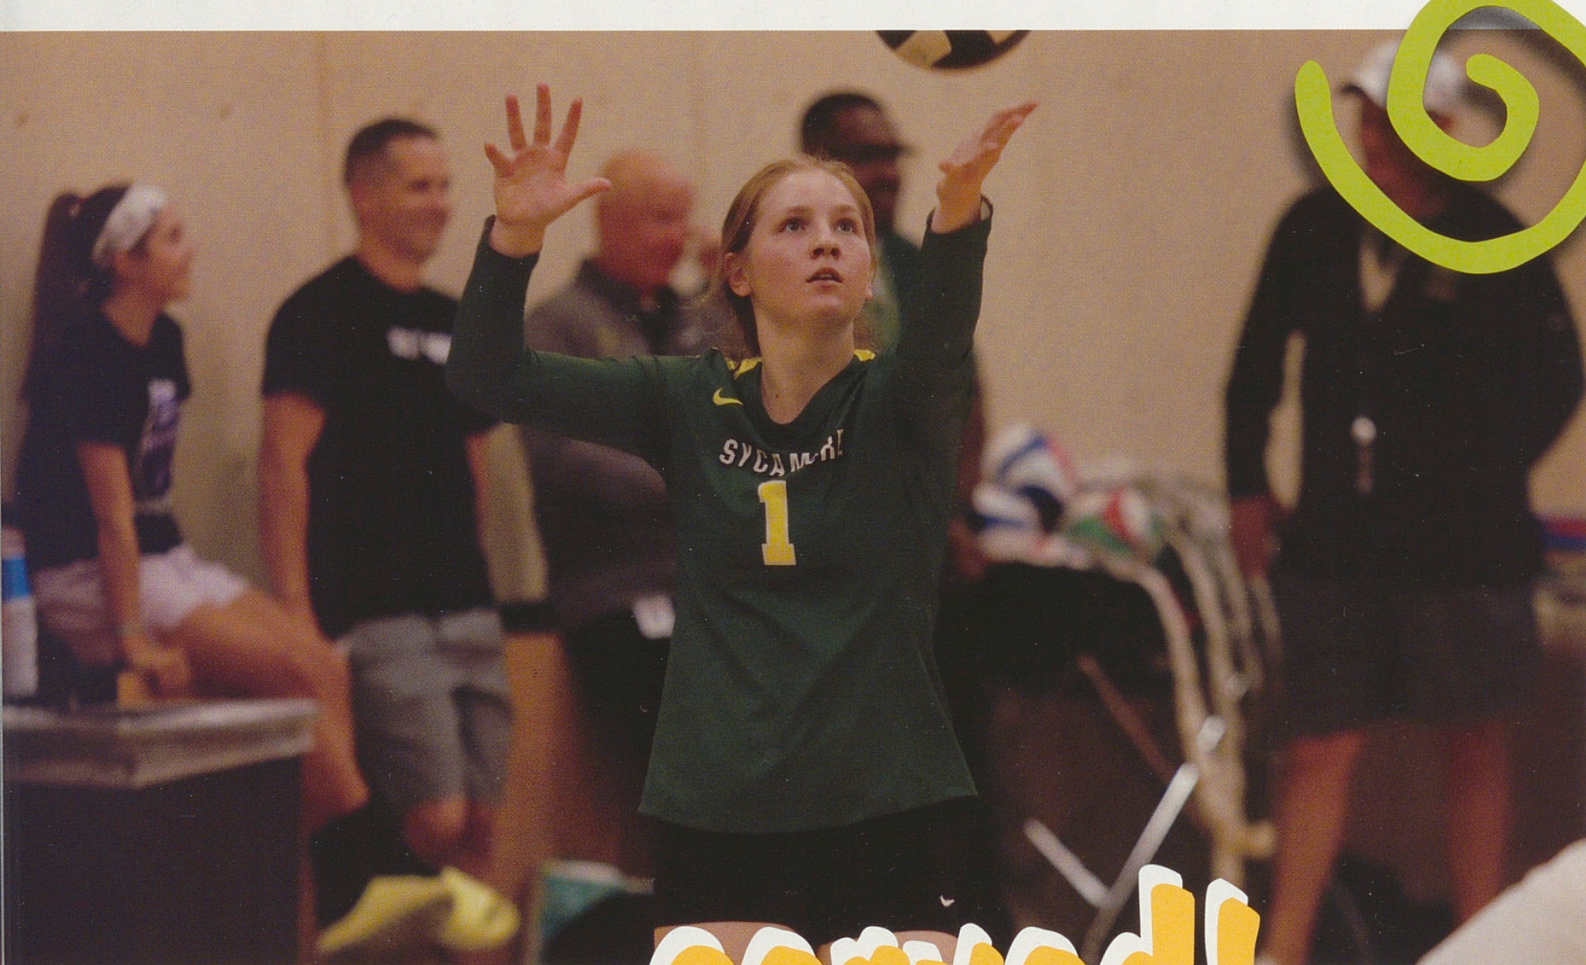

## BETTER TOGETHER

*A pair of friends make a dynamic duo on the team.*

Two dominant Lady Aves, **Carly Theil, 11**, and **Stella Ceddia, 11**, came to play volleyball together back in fifth grade and they form one powerful duo. Combined, they have 156 kills throughout their total 39 games! They have made so many fun memories together, like going to the lake and many team bondings. As juniors, they are ecstatic to take on their senior year together and lead their team to victory!

## SET UP FOR SUCCESS

*A successful junior shares her story on the team.*

**Ava Mirande, 11**, has reached a major milestone in her high school volleyball career: She has received the award of 1,000 Assists, meaning she has set her teammates up for a kill more than 1,000 times. Mirande explained to us, "I am super honored of how cool this award is, but it also takes a team effort for it to happen." She has been setting on Varsity since her Freshman year, and came into her freshman season feeling quite nervous, but she has grown to love her role on the team.

# bump, set, spike, **win**

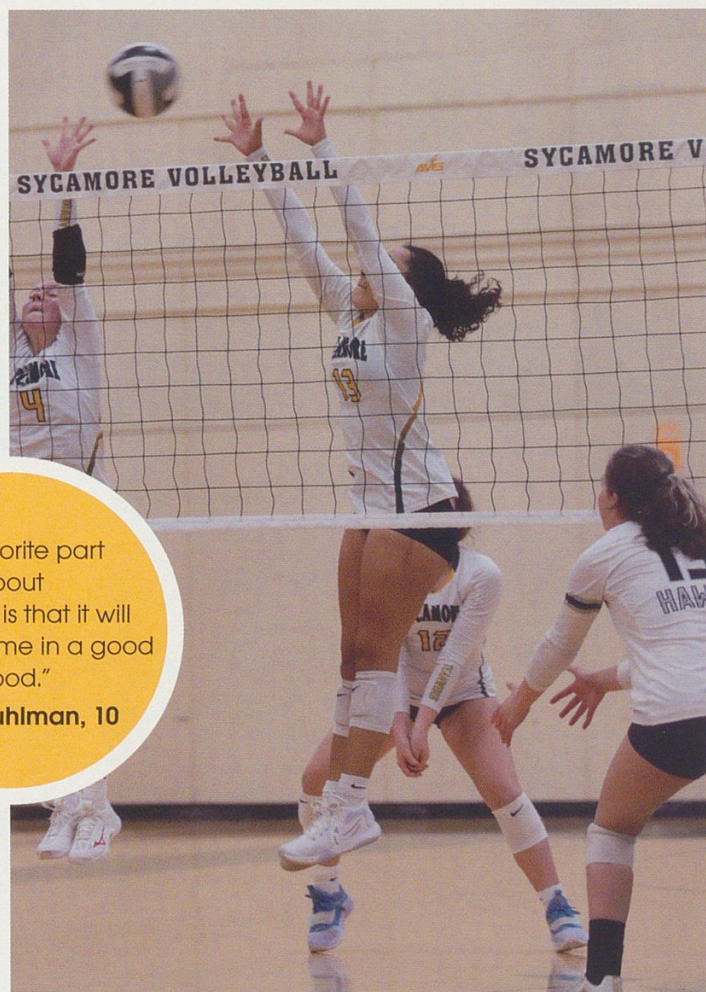

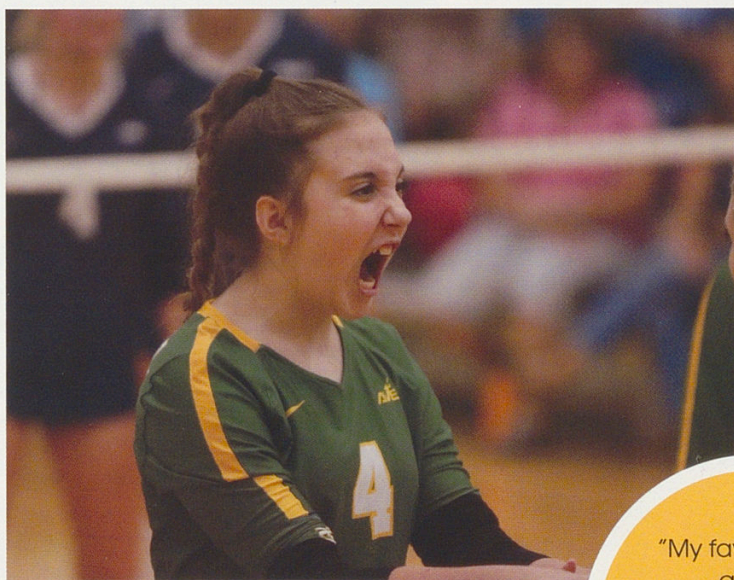

## *JV girls volleyball*

The Lady Aves JV Volleyball team is a group of hardworking, fun-loving girls. They are determined to win, and are willing to push each other to get there. Working together and keeping a good mindset are both crucial parts of what makes the girls successful.

**Reese Kuhlman, 10** says "I think my teammates excel at being positive.

They have so much energy and always try to lift each other up after a bad practice or game." Through highs and lows, the JV Girls Volleyball team will always support their teammates.

This amazing team dynamic has led them to a successful and memorable season.

"My favorite part about volleyball is that it will always put me in a good mood."

**Reese Kuhlman, 10**

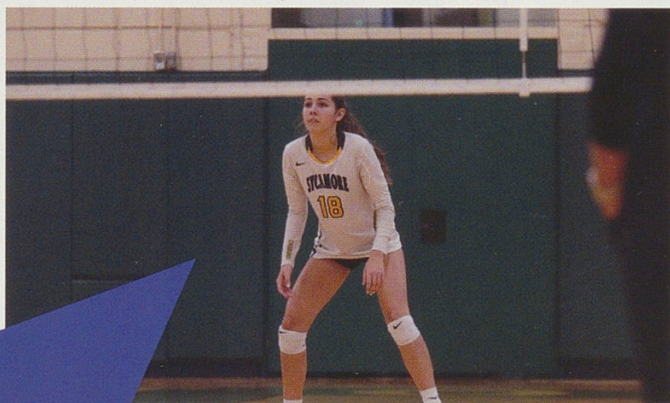

# GIVING BACK

Volley for the Cure is a foundation that promotes positive awareness for breast cancer. They have raised more than \$35,000 out of their \$100,000 goal. Early detection saves lives in the fight against breast cancer. By encouraging early education and awareness, we can help prevent it from further spreading and developing.

At the Volley for the Cure game, the Aves showed up and showed their support for the foundation, packing the stands for the match against Mason with pink-clad students, coaches, and parents. Fundraising generated through a raffle, bake sale, t-shirt sales, and general donations raised more than \$4,800, which has donated to the Susan G. Komen Foundation. The foundation works to save lives and end breast cancer forever by empowering people, ensuring quality care, and helping find cures.

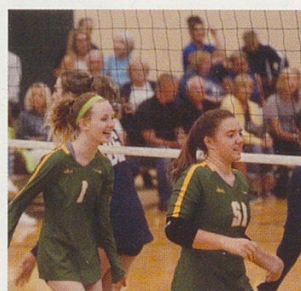

"I've learned from playing on a team that we won't succeed if we don't all work together."  
Piper Tilton, 10

**Q. What advice would you give to younger volleyball players just starting out?**

"Try to go to as many clinics or open gyms as possible to get more exposed. Try to get private lessons as well to make sure the coaches are only focused on you so you can get better."

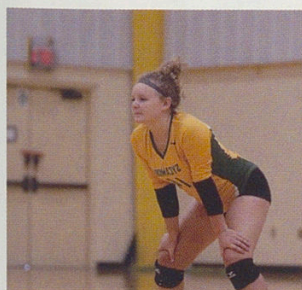

**Dorothea Willis, 10**

**Q. How much of success is mental and how much is physical and why?**

"In my opinion it's 50/50. When you play you have to be in a good mind-set and have your complete focus on the game. You have to know what the team's weak points are and to use them to your advantage."

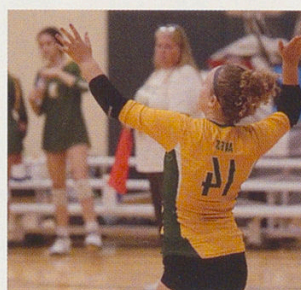

**Dorothea Willis, 10**

**Q. How do you stay motivated?**

I stay motivated because I want to get better and coming to practice everyday and giving my best effort will help me improve.

**Piper Tilton, 10**

**Q. What is the most important part of working on a team?**

"The most important part of working on a team is keeping each other's heads held high and not putting each other down when we make a mistake."

**Piper Tilton, 10**

Making this season her sixth year running, she says her favorite meet out of them all, was Milford. Some of her favorite memories were traveling to Alabama with the team and running at faraway meets.

## RUNNING MUSIC FAVORITES:

"Mr. Blue Sky."

**Camila Esquivel Cerrillo, 11**

"Tutti-Frutti."

**Kayla Busby, 12**

"Super Freaky Girl."

**Maria Shomo, 12**

# too quick to boys cross country quit

Another great season for the Boys Cross Country team takes place as they fought through thunderstorms, heat-warning weather, Yellow Belly Wednesdays, and even an appendix removal throughout the course of their 2022 season. This "brotherhood" of runners really shows true team harmony with many traditions, bagel outings, music and of course, amazing meet days. "My last season got cut short unexpectedly but that didn't stop me from having an amazing time with the brotherhood."

Says **Patrick Dauenhauer, 12**, who is the top runner on the team with a PR of 15:59 for the 5K.

## THE AVES GO BLUE

Each year the cross country team raises awareness and donates to a different organization each year. This year the team chose Matthew 25 and helped out by volunteering at the building while mixing paint and sorting toiletries. Varsity wore blue uniforms to help spread awareness at some of their meets.

**NELSON DEWITT, 11**

My mindset during the race is just to get it over with. Ermaan's suggestion: '90% of the race is half determination'"

**BROCK GIESENSCHLAG, 11**

"During a meet, I usually think about a song with a good beat, or sing a fast song in my head to keep a good pace and keep my mind on check."

**ALEXANDER FILIPPI, 9**

"Usually I get into the mindset of racing by ignoring the fact that I have to run. I try my best to distract myself until I'm on the starting line and the gun goes off."

## KEEPING TRADITIONS ALIVE

### MIDNIGHT MADNESS

What better way to start off the season than to have your first practice at midnight! One tradition in boys cross country is to have their first official practice of the season at 12:00 on the track. "Midnight Madness is probably the most iconic tradition because of how it opens the season in such an over the top way." Says **Alexander Caldwell, 12**, as the senior boys came in with suits on.

### THE POP-TART RUN

On one of the boys's morning practices, once a year their coach, Benham, takes the fastest runner and pairs him with the slowest runner, then the second fastest with the second slowest and so on. Then each pair of partners dresses up together and runs 10 laps around the the track as sort of a relay. All the boys eat pop tarts during it and the top 4 winners get more pop tarts. "It's a great way to barf at 6:30 in the morning just to win your favorite pop tart."

**Brett Kramer, 10.**

### COACH KNOWS BEST

Golf player John Vitullo, 10 answers a question about his experience on the team.

**Q:** What's your favorite piece of advice your coach has given you?

**A:** "Probably that golf is just a game of sportsmanship and putting a ball in a cup. It made me realize that without good sportsmanship, you're missing what golf is really about, which is not caring all about the game but helping your team and opponents. When you have that, putting the ball in the cup is the easiest part."

**Q:** What skills are needed to be successful?

**A:** "Patience, you need to be patient and wait for your time to come, wait for the shot and make the best of the situation."

## PREGAME RITUALS

"Pregame rituals are super important for tennis players. It's how you set the tone for your match. For me, I like to hand anything from hearts to writing inside jokes so I can smile on the court. Tennis players are also superstitious. I do all my stretches in the exact same order."

Elle Frischer, 12

## SERVING UP A Q&A

**Senior Maithilee Teredesai**, who has been playing tennis since she was 8 years old shares some stories about the sport:

**Q:** Why did you decide to play tennis?

# where the **actions** at *girls water polo*

The Sycamore Varsity Girls Waterpolo team has dealt with major obstacles since the start of their 2022 season. The girls had lots of uncertainty and doubt, but with the help of their new coach Tom Anderson, they were able to overcome the hardships. Ferdoos Baghbanian 12 gives us insight into their new coach by saying, "Tom put together our broken team and forced a new attitude onto us. Driving to Princeton daily, we were determined to leave everything in the water. Matching Tom's optimism+confidence we quickly dominated the south division ultimately winning third in the state" (Baghbanian 12). The girl's Waterpolo team has become closer than ever as their season has progressed. They have learned to trust and look out for each other in and out of the water. You know what they say, there is no 'I' in Waterpolo.

It was amazing to see everyone come together and work as a team. I am so proud of our last games and next years outcome will be even better!"

**Alexis Klugo, 11**

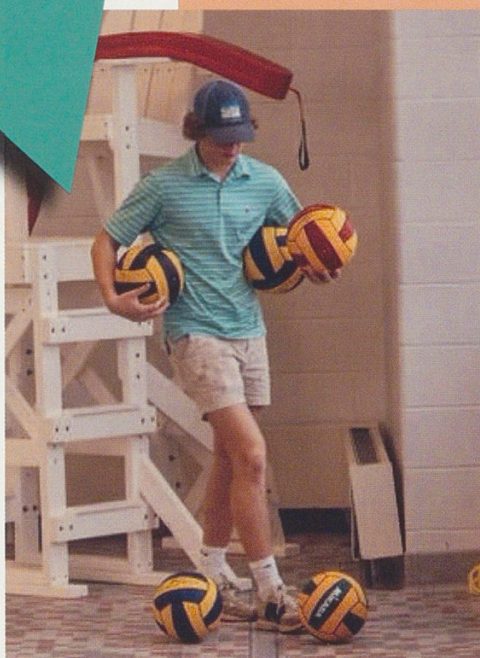

# a change in boys waterpolo *the tides*

The Boys Waterpolo team made a splash this year getting 3rd place in the South Regional, and 5th place overall in the State Tournament. Even with no pool at Sycamore, these boys still managed to give it their all this season with all their home games at Princeton High School. Waterpolo calls for strength, communication, and of course, astounding leadership. "I had an amazing time this year with my team; we were so lucky to have seniors that were all willing to play leading roles in practice and games," said **Sophomore Grant Carmody**, who has a close relationship with all the seniors.

From switching pools, to great coaching, to even new hair, so many elements came together to create amazing memories and a great team dynamic for the boys waterpolo team and season.

## STEPPING UP

What better way to support your friends in your sport, than to be on the sidelines of every game as the team manager. Jack Carmody took on the role of team manager his senior year after playing his Freshman year. "I chose to be manager because I still wanted to be involved with the waterpolo team and all my friends their senior season. Watching all the boys kill it in the pool definitely made me want to play a little. If I could go back and do it again I would have stuck with it from freshman year."

**Jack Carmody, 12.**

"The past four years have been nothing but fun. I made so many good friendships and learned so many leadership skills. Play Sycamore Waterpolo. It will change your life"

Adrian Banke, 12

## NEW HAIR WHO DIS?

Senior year calls for crazy changes. **Senior Angel Chacon** decided to go big or go home for the Senior season and switch up his hair. "What prompted me to do the hair was to try something new. I had seen the TikTok trend and it's something that I've wanted to do since sophomore year. Since it was my last year of high school I did it." The hair was a hit among the Senior class—and all of his teammates. It was the perfect way to end a great four seasons of waterpolo. "Scoring a goal against Saint X my sophomore year was probably one of my favorite memories. Seeing every- one go crazy is what motivated me to keep playing. And it gave me the chance to meet lifelong friends."

Ultimate Frisbee was introduced to the world for the first time on Independence Day in 1970.

The end zones in Ultimate are twice as big as those in Football.

## SIBILING SPOTLIGHT

*Read on to learn more about sibling duos on the team.*

One interesting thing that is showcased on the frisbee team is an array of siblings. Two pairs of siblings are Jada and Sam Pressman, as well as Shane and Ari Wethaiser. Ultimate Frisbee is a very connected sport between all of the teammates on the field, and these two pairs make it even easier to have that bond to make the team better! "This sport is even more fun to play with my brother. This fall we got to play together and we were nicknamed the 'Pressman Connection' when we played together!" says **Jada Pressman, 12.**

"There are only two main positions in ultimate frisbee, and throwing is not my strong suit so I stick to catching."

# metamorpho-seas

*This winter show dives into Ovid's writings with many different stories all surrounding a pool of water. Star cast member Celia Shafer shares her experience.*

"I had a fantastic experience performing Metamorphoses! The fact that we are performing in a pool, and met with the Latin teacher to practice the difficult language, made it such a unique experience. Being a part of such a complex and deep show stretched my capabilities as an actress. Our class became so much closer, and I'm so grateful to have been a part of this show!"

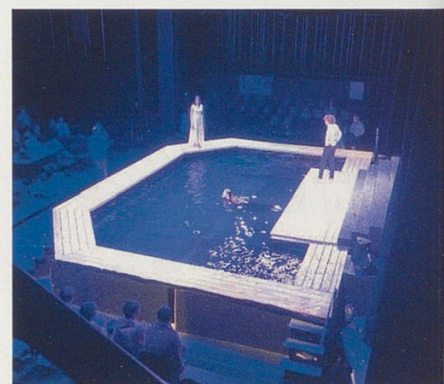

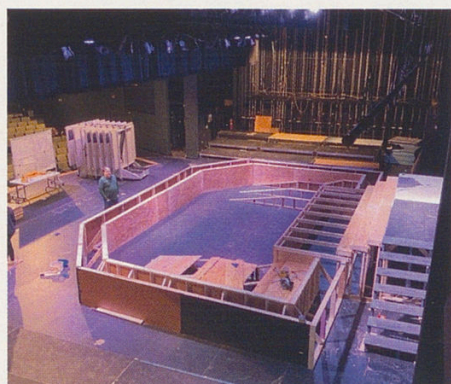

**Celia Shafer, 11**

## POOL PROCESS

The Metamorphoses cast, members of Aves Theater, and theater director John Whapham built a real pool onstage to house the show scenes. The four-week project included many hands, pool heaters, chlorine, and even some leaks. The crew also made a whole new seating arrangement on the stage to create a "black box theater," an intimate setup that places the audience right in the action.

"Managing the pool was a crazy challenge but also insanely rewarding. All 4947.33 gallons of it!," said **Jude Whalen, 12**.

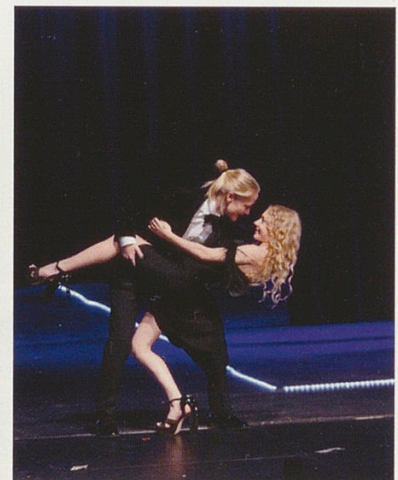

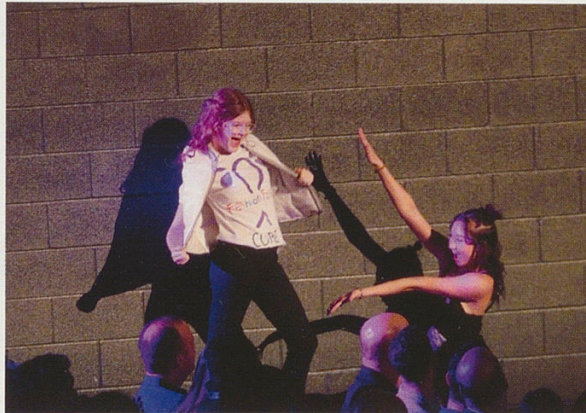

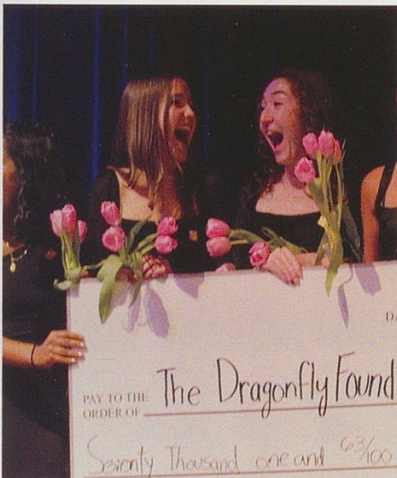

## fashion for the **cure**

This year marks the 17th annual Fashion for the Cure show. The show consists of student models in prom dresses, suits, and some casual wear. The night is dedicated to the Dragon-Fly Foundation, and most importantly the Dragon-Fly kids as they walked down the aisles of the stage in their own fun t-shirts! The show also showcases a competition of student designers by Bridal and Formal with winners **Lily Hurrell**, **Claire Berlier**, and **Sophia Daly**. This year the FFTC committee and students around the school raised \$70,000 towards the Dragon-Fly Foundation!

## CUTTING FOR THE CURE

Every year before the FFTC fashion show, Sycamore students step up to raise money for kids with pediatric cancer. With the help of the Dragonfly Foundation, volunteers cut or even shave their hair in front of a student audience. This year saw nine participants: five who came to shave their head and four who cut their hair. This event helps donate hair to the foundation or even just show kids that it's okay to rock a shaved head! Many people throughout school watched this take place in the gym during lunch and ace bell as they cheered the students on.

## art classes

**ANNIE MILLER, 10:**

**CELINE APAEZ, 11:** "The hardest part when doing any art project, but especially this one, is having patience. If you rush the process, you miss important details that are vital to creating amazing artwork."

**STELLA BAKER, 10:** "Graphic Design is a great way to learn about computers and design. It also helps you to be able to take advantage of technological opportunities. It is such a fun class."

**ABBY SHEARD, 10:** "I am in Art II 2D and my favorite part is getting to be creative with my friends."

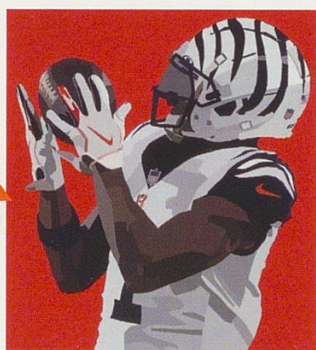

**NEHAL KSHIRSAGAR 10:**

**CHRISTOPHER SOTROPA, 9:**

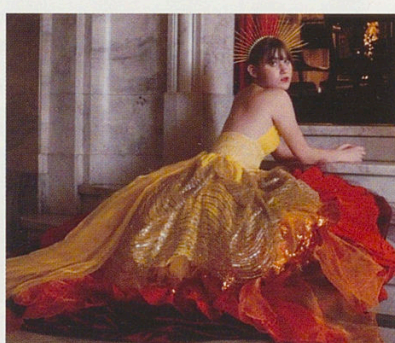

"Part of what I love about creating art is that I get to express myself and my interests. I incorporated my favorite NFL player, Ja'Marr Chase, in this piece. The hardest part of creating artwork (for me) is the beginning. Finding a great idea can be difficult in itself, but putting that idea down and knowing where to start can be just as challenging..."

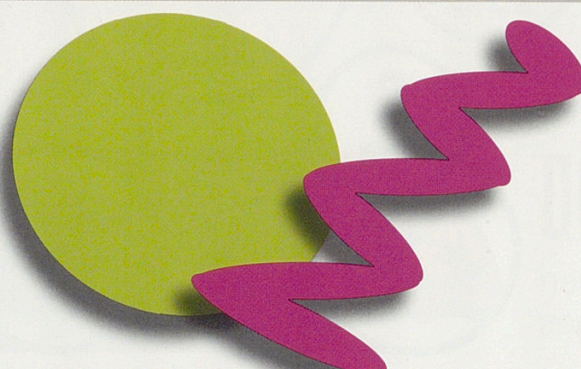

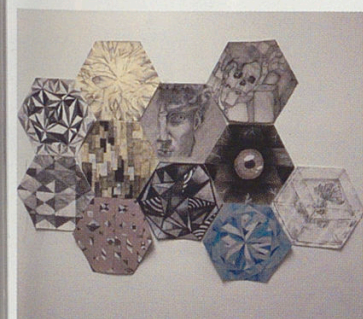

**SARINA OLIFF, 10:** "In Adaptive Art, typically we will work with the students on different projects. Right now, we are working on primary and secondary colors. My favorite part about being a mentor is that I get to meet so many new students and learn their personalities. I love hanging out with them and making all kinds of art with them. It's so fun to watch them grow as artists throughout the year."

**SOPHIA DALY 10:** "I made this dress called The Sun and it is inspired by my idea of the sun goddess who I link to traditional pagan spirituality. I love this dress because of all of the different types of fabrics in it and the dynamic way it moves and shimmers."

**ELIZABETH WOLPHER, 10:** "I made this piece in my Art III Drawing Class. In the artwork is a drawing of my Freshman Year Math Teacher, Mrs. Marth. She is one of my favorite teachers of all time and someone that I definitely look up to as a role model."

## Raleigh's Rowdy

Junior **Raleigh Burgess** has been on Sycamore's Varsity Basketball Team since his freshman year, when he scored a total of 13 points throughout the season. Now it's his junior year, and in the 11 games that he has played, Burgess has increased his total number of points by at least twelve percent to 154 points so far. Burgess also leads the GMC in rebounds, blocks, and field goal percentage. "I have played basketball since second grade," Burgess said. "I have always played for Sycamore (but) I have also played AAU basketball for five years, since sixth grade." AAU stands for Amateur Athletic Union, where players from multiple schools are able to come together and play on the same team. "So you could say that basketball takes up a lot of my time," Burgess adds. "Winning the Holiday Hardwood Classic player of the Game award was very cool because you don't always get the opportunity in high school to play in the Cintas Center and the fact that I played well enough to win the award really meant a lot."

bowling team

Q. How much skill does the Bowling Team require?  
A. "It's not a big skill margin. Our varsity girls team is full of mostly new bowlers, and they've improved so much just by going. And it's not a thing where you're going in every day training and focusing hard; you can go and have fun and get better." **-Seisho Miller, 10**

The matches are intense! We do two individual games and then there's something called "bakers." There are five of us and we each bowl a frame. And the bowlers do these loud chants and it's chaos! But good chaos. You wouldn't think it would be that hype in there but everybody gets worked up about it.

Two teams of students compete in rounds about history, science, literature, current events, and many more topics.

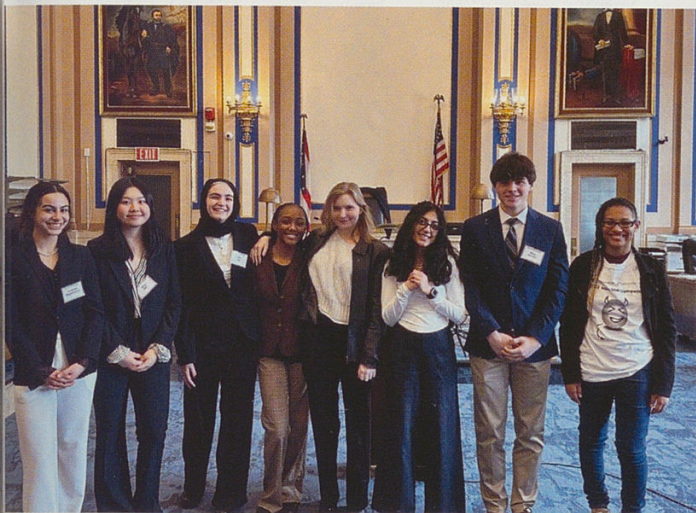

## model united nations

Model United Nations is a public speaking and debate club where students represent a committee of a country in the model of a meeting of various countries all over the globe. Throughout the year students participate in conferences where they work in their assigned countries' best interests by making compromises, agreements, and plans of action. The club is very beginner friendly and is an excellent way for students to learn about public speaking, compromise, and diplomacy.

"I think Model UN is super helpful, especially when it comes to communications and conflict resolution...it teaches you to be open minded, because you might be representing something that disagrees with your own beliefs, but you have to learn how to represent and put those aside...It's very helpful and you see it be applied to students' day-to-day lives all the time."

Leen Ciba,

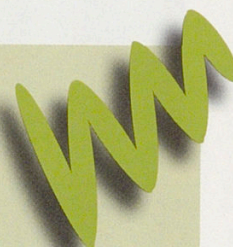

## MOCK TRIAL

"For district competition we go to the Hamilton County Court House, and we compete in little court rooms, and we have a judge who is usually like a lawyer or just a law professor...It's almost like a real trial."

Leen Ciba, 12

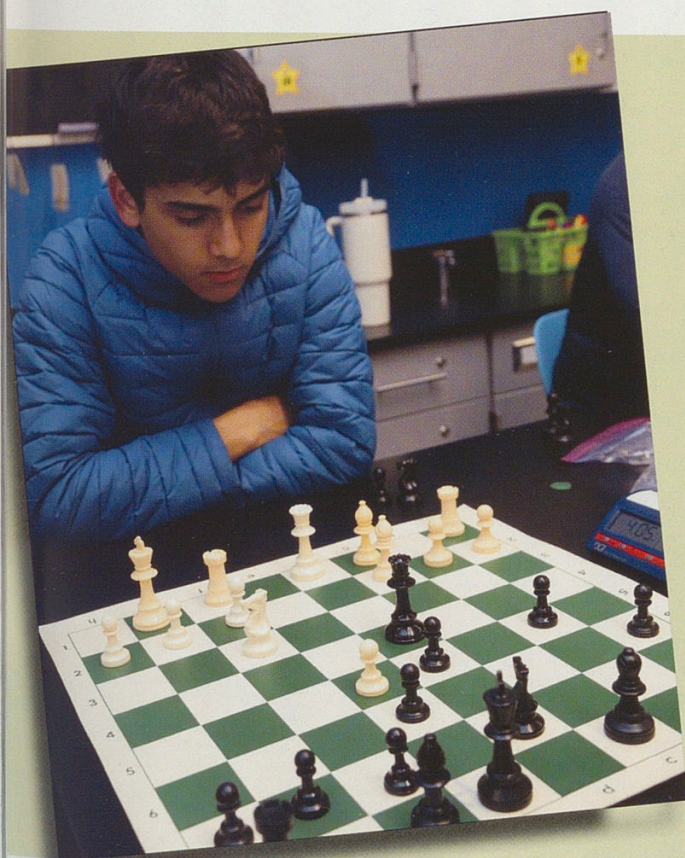

## CHESS TEAM

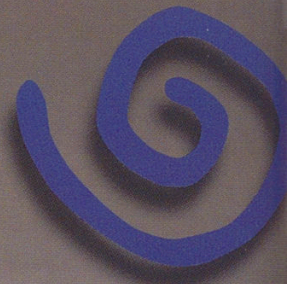

"...I think it's as beautiful and fascinating and deep as any game that's out there...it's the most wonderful experience to immerse yourself in chess."

I have loved this season's cheer season and I'm looking forward to coming back my senior year."

She is an inspiration because she has a really good work ethic and always strives to do her best. She is a leader and an outstanding cheerleader. She always pushes people to do their best whether it is at practice or games. One day, I hope to be like her and be the exceptional person she is."

**Paige Wuebkenberg, 9:** "One cheerleader that I look up to is Lyla Zawatsky because she is very nice, fun to be around, and hardworking. Another cheerleader that I look up to is Ella Wooley because she is very dedicated to cheer and hardworking."

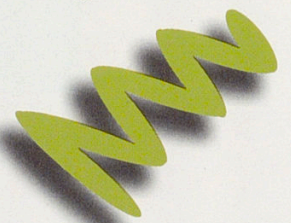

## HOW HAS YOUR FIRST YEAR OF HIGH SCHOOL CHEERLEADING COMPARED TO YOUR EXPECTATIONS?

**Addison Cox, 9:** "The season was pretty good and exceeded my expectations. The teams and coaches are very supportive and it is such a good community. The Varsity games are also a blast to go to and enjoy time with your friends while cheering our winning team on."

**Rileigh Ivory, 9:** "Last year, we had to have the coaches tell us everything, and everything just moved more slowly. This year (at the High School), we are much more independent, the communication is on point, and we are very into it. It is a lot of fun and we get to be more free as well."

**Kaili Holly, 9:** "Things were definitely more complex this year making it an adjustment, but I loved my teammates throughout the season and I will definitely do it again."

"The choices we make lead up to actual experiences. It is one thing to decide to climb a mountain. It is quite another to be on top of it."  
-Herbert A. Simon

I have witnessed you overcome challenges your whole life. Starting with childhood milestones that you surpassed every time....to a move from a very small school to one 20 times its size....to working so hard in curriculum and sports that you excelled at everything you did.

After 17 years, and all of life's hardships that have tried to knock you down, you are STILL conquering. You are truly an impressive young woman.

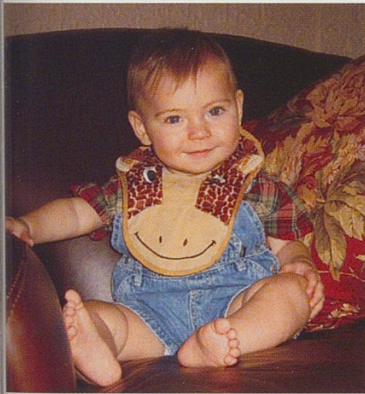

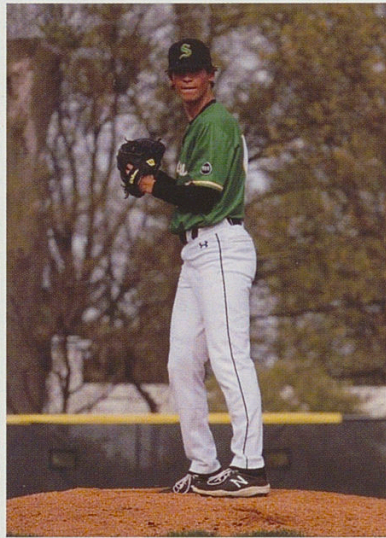

I have no doubt that you will do wonderful things with your life. You are strong willed, motivated, self-disciplined, hardworking, kind, and absolutely beautiful.

I am so proud to be your mom. I love you.

### **Mighty Oak**

by Kathy J Parenteau

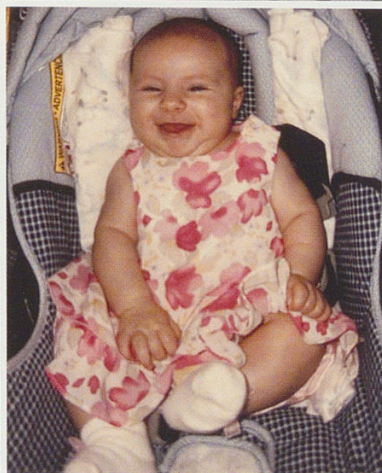

Stand tall oh mighty oak, for all the world to see,  
your strength and undying beauty forever amazes me.  
Though storm clouds hover above you, your branches span the sky,  
in search of the radiant sunlight you count on to survive.  
When the winds are high and restless and you lose a limb or two,  
it only makes you stronger, we could learn so much from you.  
Though generations have come and gone and brought about such change,  
quietly you've watched them all yet still remained the same.  
I only pray God give to me the strength he's given you,  
to face each day with hope, whether skies are black or blue,  
Life on earth is truly a gift every moment we must treasure,  
it's the simple things we take for granted that become our ultimate pleasures.

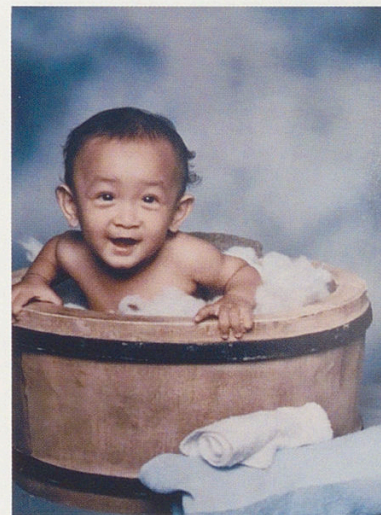

We're so proud of you and love you always!  
Mom, Dad, Joey and Gianni

Adaptive Art Class

## adaptive art

"In 2016 Adaptive Art began with a week of art camp during state testing days when SHS did several testing days in a row. It was for students with special needs that were excluded from state testing."

"When they work in their favorite ways, we discover new means of communication, new positive behaviors, and resultantly, really beautiful artwork."

-Elise Williams

## pancake day

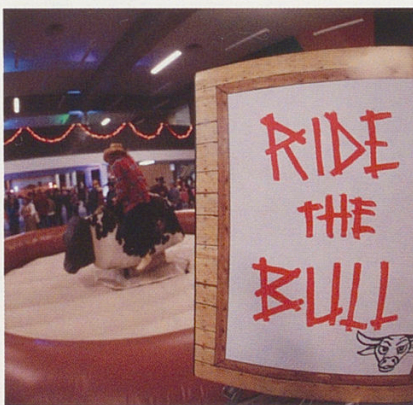

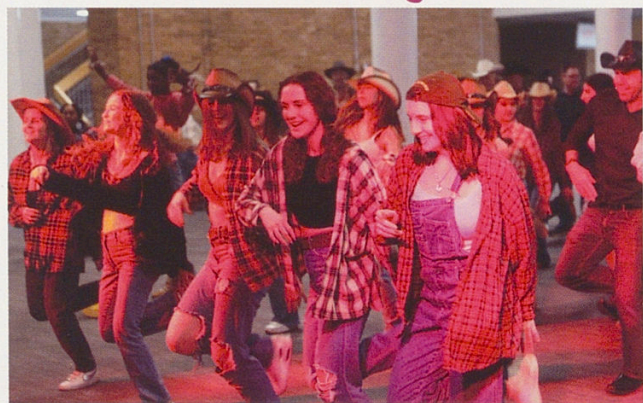

"This pancake day was probably my favorite so far. Along with performing music with several groups, we had the opportunity to rehearse with the composer of a song right before its world premiere. As usual, the pancakes

and art did not disappoint and I got to end the day by pieing a member of the band council. I'm really glad that we were able to share all these experiences with the whole Sycamore community."

Hayden Spyrou, 10

## odd couples

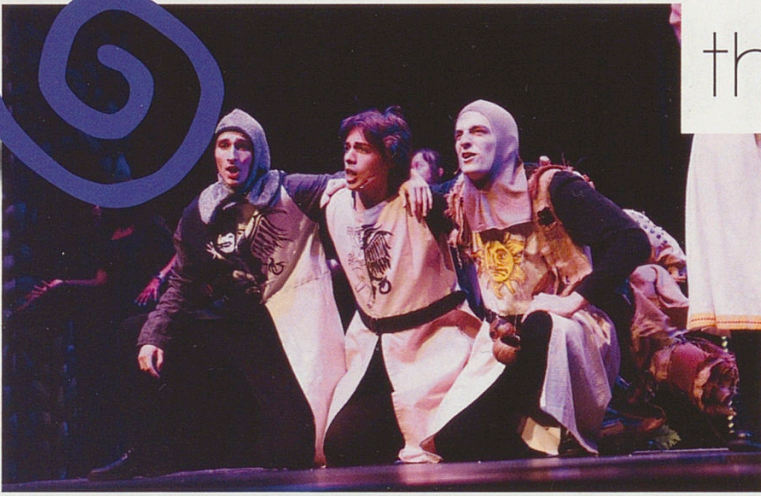

"It was great to see everyone, especially the parents, give the mechanical bull a whirl, and it was just a great atmosphere. It was especially cool that Tennessee Whiskey was the slow dance song because all the parents knew it."

Adam Linser, 11

## the art of **spamalot**

This year, the talented crew of SHS actors staged the acclaimed musical Spamalot (based on *Monty Python and the Holy Grail*). The play tells the tale of King Arther and his Knights of the Round Table on their quest to find the Holy Grail.

**Morgan Robbins, 12**, who starred as "Lady of the Lake," talks about what it took to play the role:

***What was your favorite part of Spamalot?***

"Simply watching the show come together," Robbins said. "There is so much chaos that came with piecing this show together, but the finale result was so hilarious."

***What was the most challenging part of your role?***

"The most challenging part of playing Lady of the Lake was how committed I needed to be to truly embody this role," she said. "Playing this part definitely tested my abilities with my acting, but it was so much fun!"

## defending the **drumline**

Every year during November, an assorted group of the best percussionists at Sycamore High School perform in the Drumline Competition, a series of challenges between different schools. Drumlines from all across the nation compete to see who is the best of the best.

We spoke to member **Ethan Ehrlich, 12**, about his experiences on the line:

***What is your favorite part of Drumline?***

"The last show of the year is my favorite," said Ehrlich, "because we get to look back and see how we evolved as a team."

***Are there any misconceptions you want to clear up about Drumline?***

"Yeah, people think the Drumline is just for band nerds or for the people who just want to say they are doing something," Ehrlich said. "A lot of people even think we're just an offshoot of the Marching Band, which can't be further from the truth. It is an extremely creative workout with all the people planning the show we will put on and all the heavy instruments we are lugging around to play."

# dress to **impress** prom

Another school year, and another amazing Aviator Prom. This year, Prom was held at the Manor House. Students started planning their outfits months in advance so that they would look their best for the big night. At Prom, students were treated to a wonderful dinner (and dessert!) while they ate with friends. Then, the party started. Sycamore's signature dance is mosh pits, and this year was no different. There was a mosh pit for every song imaginable, except for "Perfect," by Ed Sheeran, the unofficial bathroom break song. This year's Prom was certainly a night to remember for years to come.

Class of 2023 Graduation

On May 21, the class of 2023 headed to the Cintas Center. It was there that the students graduated from Sycamore High School. The band played the pieces "Polly Oliver" and "Walking To The Sky," and were joined by the choir for the Alma Mater. Graduates entered to the iconic "Pomp and Circumstance." Student Body President **Anna Hewitt** greeted the packed arena, and the ceremony officially began. **Claire Dillon** sang a beautiful rendition of the "Star Spangled Banner" after the Pledge of Allegiance. The superintendent welcome was led by Mr. Chad Lewis, and following was the class welcome by **Victoria Mwangi**, Senior Class President. School Principal Mr. Taylor Porter made his first SHS graduation remarks this year and Claire

Berlier made her student address, "Thanks for the Memories." Some of Aves Theatre's own, **Claire Dillon, Morgan Robbins, and Maria Shomo**, performed "Thank You for the Music" by ABBA. "Our Last and First Goodbye" was sung by **Julia Zinnbauer** and **Maxwell Taylor**, and student

performances came to a close with "Song of Farewell," performed by Select Ensemble and Choral Program Seniors.

## Senior Elementary Walk

For some students, it has been 8+ years since they have been to their elementary school. So each year before Graduation, seniors take a trip back in time.

When asked about what it was like, **Jude Whalen** describes it as "A sad kind of hopeful, and everything felt so small." Some of the seniors' favorite memories include the playground, board games, and spending time with the future students of SHS.

Seniors also had their annual Senior Picnic, a day filled with bouncy houses, delicious food, and even a magician.

Cheers to the Class of 2023!

## FRESH PAIR OF EYES

Junior **Allie Borregard** gives us her first year insight and opinions on the team.

"This year is my first year attending Sycamore High School and being on the softball team. The coaching staff and players took me in and welcomed me with open arms, it was like I had been on the team since freshman year. I have made many new friends and the coaches continue to push me every single day to be the best player I can be" (**Borregard, 11**).

"For me, it serves as an opportunity to show how we have grown from freshmen, to set the tone for the whole program as leaders."

(Matt Enneking, 12)

"It is unfortunate that the first game has to be the beginning of the end, but I look forward to playing with my teammates in my last season."

(Benjamin Schwartz, 12)

"I am excited to enjoy my last season of baseball with the team."

(Noah Ellis, 12)

"Playing on the varsity team as a freshman so far has definitely had its ups and downs. Having to play with the older guys helps to humble me as I continue to find my place, but having great upperclassmen that always support you has been one of the best things for me."

## WHAT'S IN YOUR BAG

Ian Ives, 11 gives us the inside scoop on his game day necessities.

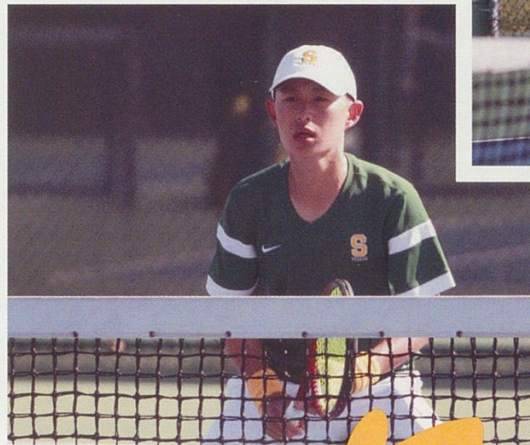

"I bring a hat to keep the hair out of my face and the sun out of my eyes."

"I bring 3 rackets because over time your strings will break and you'll need a backup."

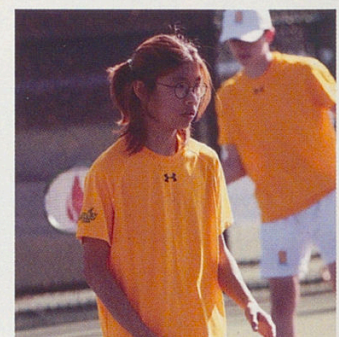

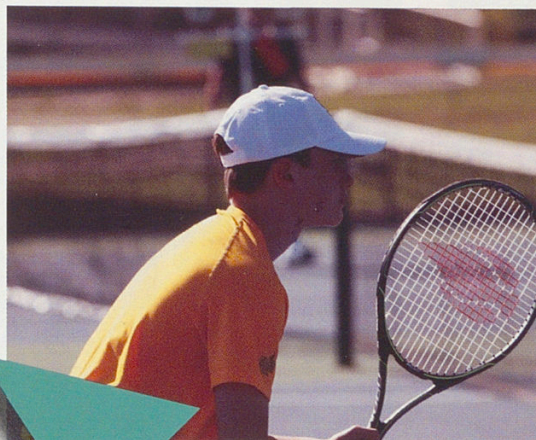

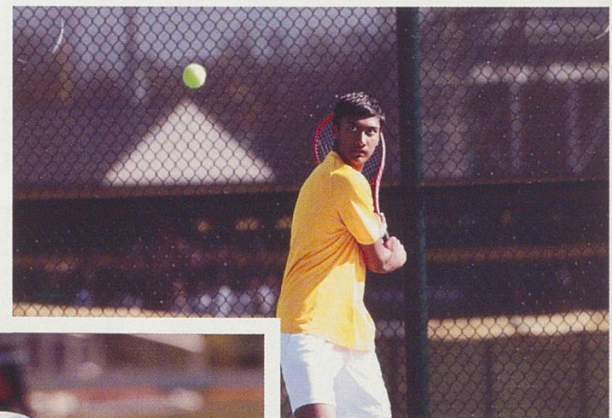

"I bring a gallon of water because matches can last up to three hours and you can never have enough water."

## serving up jv boys tennis **Success**

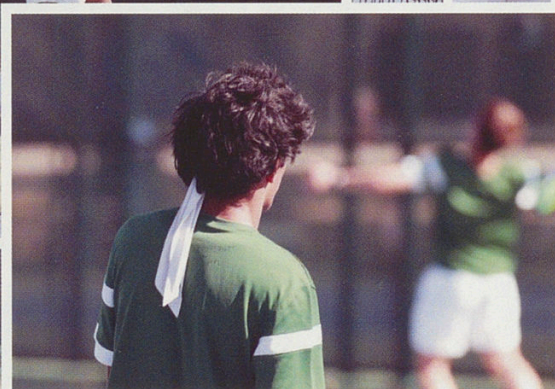

The underclassmen of the JV tennis team are a hard-working group. While it may seem simple, there is much more to the game than just hitting a ball with a racket. Tennis requires strategy and coordination, as well as a number of other skills. Tennis goes far beyond just physical ability. **Yohaan Thakur, 9**, says one of the most important aspects of tennis is mental toughness. "While tennis matches may seem long, one game lost can quickly turn into many once your attitude sours. Thus, mental endurance is likely the most complex challenge (for players) to face" he says. Another key to being successful on the court? Good footwork! Yohaan explained that while you might have a strong forehand, it is not much use if you can't get to the ball in time. Overall, it sounds like the JV Boys tennis team has everything needed for a great season.

varsity boys tennis

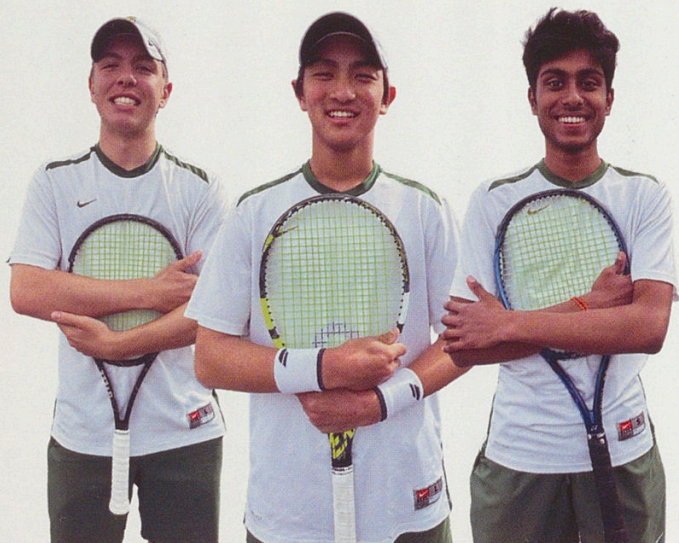

The Sycamore Boys Varsity Tennis Team is back to fend for their top spot and successfully took home the GMC trophy once again. The team has been working hard with their (current) undefeated season. Team Captains **Andrew Wittenbaum, 11** and **Arjun Rajagopala, 11** are ready to dominate the court and help to lead their team to more victories here at Sycamore. The team is resilient, fired up, and ready to win. They have a great team bond

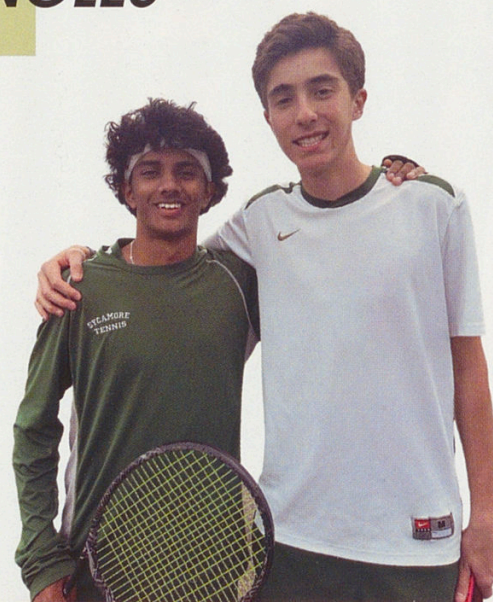

and are ready for any challenges thrown at them. The Varsity squad is led by Coach Michael Teets who devotes all of his time to his favorite boys. The team is anxiously waiting for the outcome of the 2022-2023 season and ready to see what the future brings. Mostly dominated by juniors, the varsity gold tennis team is looking at a strong senior season next year.

Charlie Hall, 12; Stanley Kaniecki

"They have been doing amazing so far. They have almost beat some of the top schools in Ohio; they went to 5 sets with Moeller High School. This year's team has wanted to win so badly. Special shout out to Charlie Hall. This is his first year playing and he has been phenomenal. The boys play together great. 'I love these boys!'"

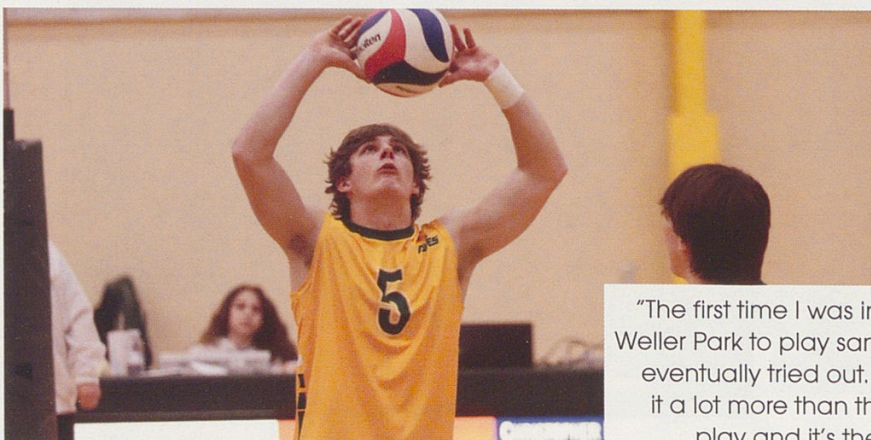

(Coach Stanley Kaniecki)

Christopher Felts, 12

"The most challenging part of volleyball is playing mentally to not give up and even if you make an error or get absolutely roofed in a play you have to keep playing. The best piece of advice I'd give to any young volleyball player is to play club because in a sport like volleyball, consistency is key."

(Derek Hampson, 12)

"The first time I was interested in playing volleyball was when my friends and I went to Weller Park to play sand volleyball. After that, I started going to high school games and eventually tried out. I am a setter; many people think it's a boring position, but I enjoy it a lot more than the opposition boys. As a setter, I get to touch the ball nearly every play and it's the most challenging position on the court. I feel like there is always something to learn so I can get better"

(Tucker Groppe, 12).

"You have to get in the mindset to win and to trust the man next to you.

Teams that have a group of guys that can work on and off the court end up being the best teams. I'm the middle hitter for the JV team and I enjoy this position because you are the big man on the court and your job is to out-block the other middles and hitters.

I like to bring the team together before the game and have a good talk before to motivate (them.) Whether they're a bench player or not, it helps with communication and confidence on the court."
