The headline says it all! With the idea of being state champs in 1985, the varsity water polo team, with a lot of hard work and frustrating practice, reached their ultimate goal. The Sycamore Aqua Aves performed as they had never performed before, passing up their rivals and other tough teams as well. A victory at the state tournament over Princeton was thrill enough to last the entire year. This year's season was definitely a season of success for the Aves. A good job for the team they called "POLO 85". It doesn't get any better than this!
