

Swimmers Take State By Storm

The headline says it all. The Sycamore swimming teams had a highly successful season, being capped off by a state runner up trophy for the boys. The winning of second place in the state was a result of teamwork and individual effort combined. The Sycamore team scored points in nine of eleven events. Several swimmers qualified for All American consideration and the junior nationals, and several new school records were set.

The girls' team tied for 20th place, with many outstanding efforts by those swimmers competing. In all, the swimmers, the coaches, and the school should be proud of the great season the 1986 swim team had.
