

Sarah,

Wow! We're serious. Isn't it fun? Isn't anthropology fun? Isn't calculus more fun than trig? I'm getting carried away. It brightens my day to converse with you at lunch every day - you're a real inspiration (nobody ever writes that but it sounds good, doesn't it?). I've a nifty-keen senior year and live it up before they turn you loose on the world. Best of luck!

Flaethen

Sarah,
This seems
like a nice
meeting
you will have
although you are
recalling you are
an instrument.
Good luck with school and
keep in touch, Love, Debbie
Hamon
