Tuning into reality TV

By: Amanda Evans

Once again, reality TV shows have dominated the air waves. Much like the last few years, the emerging number of the coveted shows has risen even more.

From Survivor to Trading Spaces, there has been no shortage of "real life" entertainment for America to watch.

"The Real World was my favorite because every season of it just gets funnier," said **Alexander Reed, 10.**

Students also favored shows that related directly to high school life.

"Laguna Beach was a surreal take on high school but it was still entertaining to watch," said **Carolyn Dunn, 10.**

"I personally enjoy the Simple Life. Paris Hilton is a babe," said **David Chapman, 10.**

Whatever show you're into, watching TV was always a good time to relax. Among the top choices were American Idol and The Apprentice.
