

"What I love about teaching is watching the students increase their understanding and ability to express themselves with the medium of photography," said **Robert Gregory**.

**Mr. Steve Imhoff** teaches his **sophmores** geometry. He was truly going to be missed for many reasons. He was not only a math teacher, but a friend to most students and teachers who encounter him. **Imhoff** has been labeled "Mr. Sycamore" for everything that he has done for the school.
