Serving up the fun! The gourmet cooking classes opened up a restaurant to show off their newly developed talents. **Lauren Jones, 12**, serves up the food.

Every day future doctors, congressmen, nurses, baseball players, teachers, and firemen walked through the halls.

After graduation, all of us will explore the world and find a career.

Many teenagers think they have no idea what they want to be but others know exactly what they will do after school.

Others explore the high school through different kinds of classes. There were so many different types of classes available similar to possible jobs many students find that to be their way of finding a career. Cooking, art, journalism, drafting, marketing, and global language were some of the popular classes that lead students to get a chance to discover what they might consider a future career.

Look out future, here we come.

“

When I was 10 years old I dreamed of becoming a veterinarian. I loved animals and thought it would be fun to work with them,”

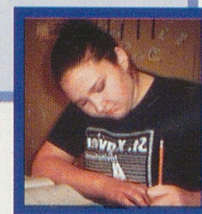

Jonathan King, 9

“

I would like to save the animals. They were here first,”

Liz Tippet, 9

Who you gonna be?
