## "Keep your heart and mind open." - Mrs. Jennings

**Their time was up.** After this year most teachers packed their belongings and eagerly awaited their class assignments and student lists for the following year, while other teachers retired and were ready for new and different daily activities. 2003 was the last year for faculty members: **Mrs. Kathleen Stacy**, Counselor, **Mrs. Sharon Evans**, Librarian, **Mr. Donald Hayden**, Global Language, and **Mrs. Diane Jennings**, English. Some of these teachers have great retirement ideas, while others look forward to spontaneous plans. Some wanted to travel, while others wanted to read more and relax. Some wanted to spend time with family while others wanted to be more involved in other group activities. Whatever they do in their free time will be a great change in their life-style.

Many other teachers did not retire, but left for other reasons. **Ms. Emily Reitenbach**, Educational Assistant, planned on going back to school; **Mr. Frank Ambrose**, Social Studies, departed to Florida to be with his family; **Mr. Tim Hart**, English, left to be an administrator at Cincinnati Public Schools.

"I figure I am at least ten years from qualifying as a Wal-Mart greeter," said Hayden.

These teachers went through a lot of different memorable moments and also have contributed a lot to our

school.

"My favorite moments occur when students come back from low grades or a serious personal setback and do well," said Stacy.

Their hard work over the years have made many improvements in our school. Without them things would not have been the same. Thank you for all the memories.

**Palmer**

**Quote to Students:**  
**"Life is your  
 journey - take  
 charge and  
 enjoy!"**

**A sad good-bye. Mr. Frank Ambrose**, Social Studies teacher, left in the middle of the year to join his family in Florida. He suspects he will be back to teach for the 2004-2005 school year. He was a teacher known for being a fun person and loved being around his students.
