This year's Band is by far the finest organization ever put on the field to represent the University. Since its organization in 1920, its improvement has been most rapid, until at the present time it is considered one of the best and most strikingly uniformed bands in the country. It is much in evidence at all football and basketball games, serving as a connecting link between the teams and their followers, adding pep and enjoyment, and always urging the team on to victory.
